LIBRARY CONTENT LIST: MARU

EVALUATION OF THE ACCIDENT AND EMERGENCY DEPARTMENT FOLDER 1

• MARU, Evaluation of the Countess of Chester Nucleus Hospital/Summary Report 5/85
• MARU, Evaluation of the Countess of Chester Nucleus Hospital/Main Report 6/85
• MARU, The use of spaces in old Hospitals, Farnborough Hospital Study 1/82
• MARU, Central Changing Areas, Kings Lynn Hospital/An Evaluation of Space Provision 5/79

METHODOLOGY FOR EVALUATING DHSS BUILDINGS FOLDER 2

• USEP 4, An Interactive Computing Procedure for Analyzing User Surveys
• USEP 3, Findings from the Development of USEP/September 1978
• USEP 2, A guide for the users of the University of Surrey /User Survey Evaluation Package
• USEP 1, the need for Systematic user Evaluation in Health Buildings and the Development of the User Survey Evaluation Package.
• Evaluating Hospital Facilities for use in Health Planning and Review Activities, December 1980
• Human Valuation of Complex Environments
• MSc Planning Buildings for Health/Assignment 1
• Development of Evaluative Techniques for desktop Analysis and in use studies: A case study (Homerton Hospital Evaluation)
• Preceptor ,Typical Report Excerpt

BUILDING EVALUATION METHODS FOLDER 3

• Witham Health Centre /A Planning Document
• South Downs Health NHS Trust Board
• Evaluation of new Hospital Buildings
• Health Centres/Towards an Evaluation Methodology , Gregory Brunt 1982

EVALUATION DATA FOLDER 4
• Post PROJECT evaluation FOR THE redevelopment of West Middlesex University Hospital '05
• Evaluation of East Surrey Hospital, Summary Report
• The Evaluation of Colchester General Hospital Summary Report 3/87
• Net Evaluation Study, Derby, Manchester 8/78
• Evaluation of Newham General Hospital April 1985
• Evaluation of Newham General Hospital, Nucleus Hospital, September 1985
• Evaluation of Queen Elizabeth The Queen Mother Buildings at St. Mary Hospital, Paddington, November 1990

EVALUATION STUDY MACMILLAN BUILDING FOLDER 5

• A study of Housing associations New built and Rehabilitation Projects in London for Department of the Environment
• Building Services Journal/ April 1998
• The Exeter Evaluation, Exeter Healthcare Arts
• King Edward’s Hospital Fund for London, An Evaluation of New Guy’s House
• Evaluation Visits – A basis for Learning and Improvement

HEALTH DESIGN FOLDER 6

• The Architectural Healthcare Environment and its Effects on Patients Health Outcomes
• Inspiring Wellbeing, NHS Camden
• Funding Principles Article
• The London Haven Article
• Draft, Patient Focused Mandatory Standards
• The Patients Environment Article
• Windows in the Intensive Therapy Unit, 1980
• Healing Spaces: Elements of Environmental Design That Make an Impact on Health
• The Therapeutic qualities of nature Article
• Patient Focused Healthcare: An Important Concept for Provision and Management for Space and Services to the Healthcare Sector
• Designing for Health in the next Millennium
• The Environment’s Impact on Health
• Therapy by Design: Evaluating the UK Hospital Building Programmed
• Under the Microscope building sickness syndrome Article
• Design-Can it contribute to Healthcare
• Psychological Analysis, David Canter
• Effects of Healthcare Environmental Design on Medical Outcomes
• The Architectural Healthcare Environment and its effects on Patient Health Outcomes

RLHH FOLDER 7

• Paterson Centre Project, Feasibility Appraisal/30 April 1998 (2 copies)
• St.Charles –A new Rehabilitation Service Feasibility Appraisal /October 1998
• MARU Study ,MSU European and UK Facilities
• RLHH accommodation appraisal /March 1999
• St.Charles Mental Health Project Feasibility Appraisal 29 September 1997
• The European Health Property Network

EVALUATION FOLDER 8

• Building Evaluation in Professional Practice
• Hospital Design Evaluation, an interdisciplinary approach
• Facility Planning System, Post-Occupancy Evaluation of Health Facilities
• Hospital Facilities as work Environments

HEALTH BUILDING EVALUATION MANUAL FOLDER 9

• Health Buildings Evaluation Manual
• Good Practice Guide/Learning Lessons from Post-Project Evaluation
• Medical Architecture/How MARU studies help built a better future Article
• Health Buildings Evaluation Reports July 1990
• HSDU Pinderfields Hospital, Wakefield
• Pinderfields Ward Evaluation
• The Development of a classification framework for selecting case study Hospitals

CUMBERLAND HOSPITAL FOLDER 10

• Cumberland Infirmary,Carlisle,Stage 1 Evaluation /Background and Summary of Findings
• Cumberland Infirmary, Carlisle, Stage 1 Evaluation /Outpatients Department
• Cumberland Infirmary, Carlisle, Stage 1 Evaluation /Intensive Therapy Unit
• Cumberland Infirmary, Carlisle, Stage 1 Evaluation /Operating Department
• Cumberland Infirmary, Carlisle, Stage 1 Evaluation /Staff Catering Facilities
• Cumberland Infirmary, Carlisle, Stage 1 Evaluation /Lift Provision
• Cumberland Infirmary, Carlisle, Stage 1 Evaluation /Background and Sumary of Findings
• Cumberland Infirmary, Carlisle, Stage 1 Evaluation /Materials Handling

EVALUATION AND SPACE PROGRAMMING METHODOLOGY FOLDER 11

• The use of Space Programming and post-occupancy Evaluation
• Evaluation and Space Programming Methodology Series /13 Admitting Administration
• Evaluation and Space Programming Methodology Series/12 Respiratory Technology/Pulmonary Function

EVALUATION AND SPACE PROGRAMMING METHODOLOGY FOLDER 12

• Evaluation and Space Programming Methodology Series/5 Labour and Delivery Suite
• Evaluation and Space Programming Methodology Series/7 Dietetics

BENCHMARKING FOLDER 13

• Acute Hospital Services – Performance Indicator Group NHS, paper 2
• VFM Update – Benchmarking and re-engineering
• VFM Update plus-Benchmarking – Going for Gold, NHS
• Benchmarking documents
• Benchmarking and KPI measurement matrix

SPACE UTILIZATION FOLDER 14

• Article-Room for improvement
• Health Technical Memorandum/Space Utilization in Hospitals
• Health Technical Memorandum/Space Utilization in Hospitals/User Manual
• The use of space in old Hospitals-Farnborough Hospital Study, MARU 1/82 (X2)
• Helpingly Hospital / Re-use Study 6/86
• Future space requirements for Outpatients services at the Royal National Throat Nose and Ear Hospital – feasibility Study 1/86
- Tender Submission Document - Study of Space utilization and development of an estate strategy for Haringey Healthcare NHS Trust
- MARU - Daycare services for adults with severe learning difficulties / A space utilization study
- Derbyshire Royal Infirmary, MARU Presentation

FUNCTIONAL SUSTAINABILITY FOLDER 15

- Evaluation and Space Programming Methodology Series 8 - Material Management / April 1979
- Evaluation and Space Programming Methodology Series 9 - laundry / linen service / May 1979
- Evaluation and Space Programming Methodology Series 10 - pharmacy / March 1979
- Evaluation and Space Programming Methodology Series 11 - health record department / April 1979

SPACE UTILIZATION FOLDER 16

- Evaluation and Space Programming Methodology Series 1 - diagnostic radiology facilities / March 1978
- Evaluation and Space Programming Methodology Series 3 - emergency department / November 1978
- Evaluation and Space Programming Methodology Series 2 - surgery / day surgery suite / November 1978
- Evaluation and Space Programming Methodology Series 4 - outpatient / ambulatory care / November 1978

FUNCTIONAL SUSTAINABILITY FOLDER 17

- Article: Facilities Management - Space Program
- Functional Sustainability Assessment, Pilot Study Report / April 1984
- Functional Sustainability and Space Utilization - Progress so far 6 / 88
- Insight: Multi Discipline, Technical Support Construction and Design Profession
- Functional Sustainability and Space Utilization - Assessment Methods 2 / 86
- Performance Based Design and Management of Healthcare Facilities

FUNCTIONAL SUSTAINABILITY FOLDER 18

- Examples of Multi-use of space in Hospitals, MARU 6 / 77
- Space Utilization in Hospitals - Lister Hospital Study, MARU 3 / 78
- Space Utilization in Hospitals - Frimley Park Hospital Study, MARU 4 / 78
- Space Utilization in Hospitals - Concepts Methodology and Preliminary results, MARU 5 / 77
- Space Organization in the Accident and Emergency Department: Final Report on a research project carried out for the DHSS as part of the Systems and Standards Programmed, MARU 4 / 74
- UCERG - The use of Space in Facilities in Universities, paper 2 / October 1969
-Space Utilization in Universities and Polytechnics, design note 12

**SUSTAINABILITY FOLDER 19**

- St. Mary’s Low Energy Hospital- A brief Guide to engineering services
- Environmentally sound building system-a feasibility report 4
- Building a brighter future- A guide to low-carbon building design
- Article: Information Paper-Sustainability lessons from private finance and similar private initiatives, IP 13/02

**CARE GROUPS FOLDER 20**

- Space Organization in the Accident and Emergency Department: Final report on a research project carried out for the DHSS as part of the Systems and Standards Programmed, MARU 4/74
- UCERG- The use of Space and Facilities in Universities, paper 2/October 1969
- Space Utilization in Universities and Polytechnics
- Health Building Note 39: Ophthalmic Clinic
- Hospital E.N.T Services: A design Guide/February 1974
- Accommodation for Hospital Dermatology Services/October 1976
- Health Building Note 12: Genitor Urinary Medicine Clinics
- Design Briefing System Notebook 12: Genitor Urinary Medicines Clinics
- Health Building Note 12: Genitor Urinary Medicines Clinics/December 1989
- Folder: Orthopedic Hospitals
- Burn Unit Guidelines
- Dental Health and Dental services: A Report prepared for the Nuffield Provincial Hospitals Trust
- Health Building Note 12: Oral Surgery; Orthodontics; Restorative dentistry
- Health Building Note 12: Ophthalmology
- Health Building Note 12: ENT and audiology clinics; Hearing aid centre

**REHABILITATION SERVICES FOLDER 21**

- Trends in Rehabilitation Policy
- Directory of Rehabilitation Services for people with – Traumatic Brain Injuries
  - Spinal Cord Injuries
  - Orthopedic Injuries
  - Burns
- Effective in Practice Rehabilitation: The evidence Systematic Review
- Creating Better Rehabilitation Services /11 May 1998
- Investigating in Rehabilitation

**REHABILITATION SERVICES FOLDER 22**

- Levenslang Women
- Wandsworth Community Health Trust
- REACH Centre: Partnership Information
-The Westway Centre: Elderly People Integrated Care Service
-West London Review of Community Trust Physical Disability Services
-An Interdisciplinary Approach towards Human Centered Health Care Design in a Specialized Rehabilitation Hospital
-Rehabilitation-A Guide NHS
-Health building Note 8: Rehabilitation-Accommodation for Physiotherapy; Occupational Therapy and Speech Therapy 1990
-Harnessing the potential of herbal remedies
-Clinical Rehabilitation vol.11, number 4 /1997
-The Evidence Base of Complementary Medicine 2nd edition
-Rehabilitation: A development challenge;
-Rehabilitation Services in Greece
-Handbook no.4
-A Directory of Developments in occupational Therapy,Physiotherapy and Speech & Language Therapy Services NHS
-Studying Rehabilitation Services in the NHS
-Occupational Health Facility –section 8
-Health Building Note 8: Rehabilitation-accommodation for physiotherapy, occupational therapy and speech therapy NHS
-Data Briefing: Complementary Medicine

REHABILITATION SERVICES 1990-1999/FOLDER 23

-Rehabilitation Today in Great Britain
-Hospital Building Note 9: Occupational Therapy Department/April 1962
-Hospital Building Note 9: Occupational Therapy Department/November 1963
-Hospital Building Note 8: Physiotherapy Department/November 1963
-HOME Office-The Rehabilitation of Drugs Addicts
-Department of Rehabilitation-A Design Guide/Aug 1874
-Document: Department of Health and Social Security
-Rehabilitation: Report of a Sub-Committee of Standing Medical Advisory Committee
-Planning Facilities for Rehabilitation Services
-NOMEQ –Rehabilitation equipment
-British Health Care and Technology: Rehabilitation
-Study of Accommodation for the Rehabilitation Services MARU 2/84
-Article: Pooling Resources
-Health Building Note 8: Rehabilitation-accommodation for physiotherapy, occupational therapy and speech therapy May 1989
-Public Health Papers 81:Community response to alcohol-related problems
-Evaluation of Newham General Hospital-Rehabilitation Department
-Article/folder: Pooling Resources

OPERATING THEATRE AND CENTRAL TREATMENT RESEARCH /FOLDER 24

-Operating Theatres: A bright future for sterilization services
-Treatment Suite
-An Evaluation of the provision and utilization of the operating theatre suites, MARU 2/81
-An evaluation of the provision and utilization of the operating theatre suites, MARU 1/81
-Scottish Health Service Studies 12: Comparative Survey; Professorial Surgical Unit; Aberdeen Royal Infirmary
-Homerton Hospital –Operating Theaters and Management Policies
-The Organization and Staffing of Operating Departments
-Appraisal of the operating theatre provision and utilization ;Queen Mary’s Hospital,Roehampton
-Appraisal of theatre provision in a District General Hospital-a case study 1/85
-St.Bartholomew’s Hospital: An appraisal of the theatre provision 2/85
-Evaluation of Newham General Hospital: Operating Department/February 1985
-Cumberland Infirmary Carlisle stage 1-Operating Department
-An Evaluation of the provision and utilization of operating theatres suites 1/81
-Appraisal of the theatre provision in a District General Hospital-a case study 1/85
-Operating Theatres: A short-term investigation carried out for the department of health and social security 3/72
-Document: Department of Health and Social Security
-Hospital Building Note 26: Operating Department/January 1967

OPERATING DAY SURGERY FOLDER 25

-The British Society of Gastroenterology
-Health Building Note 38: Accommodation for the Adult Acute Day Patients (x3)
-Articles folder: A tale of two storeys
-Articles folder: Day surgery Unit opens in April
-Endoscopy Review: Endoscopy Suite Design
-Health Building Note 52: Accommodation for day care surgery unit
-Patient –Defined Outcomes
-Provision of a Gastroenterological Service in the District General Hospital 1979
-Department of Surgical Neurology-Western General Hospital Edinburgh

ENERGY FOLDER 95

- Energy conservation and energy management in buildings
- A strategic guide to energy management
- Dep. Of Health: Health Technical Memorandum 07-02

ENERGY FOLDER 96

- Sustainable construction Folder
- HSJ better buildings: It needn’t cost the earth
- The business case for green buildings 2008
- Article: Getting energized about energy
- Saving energy with energy efficiency in hospitals
- Article: Energy efficient buildings
- Article: Healing power
- How can the environmental performance of your primary care buildings be improved?
- AUDIT Commission: Saving energy in the NHS
- Article: Getting under your skin
- Low energy hospitals: St. Mary's Hospital, Isle of Wight
  2nd year appraisal

ENERGY FOLDER 97

- Energy management in Canadian Health facilities
- Article: BioRegional’s response to the UK government’s announcements on zero carbon homes
- Draft: Green spaces and regeneration
- Article: News-Lessons from Norway ecology conscious architects
- Hospital Design Philosophy for the 21st century
- Article: Editorial comment-Conservation, insulation and economization
- Article: Energetic Nucleus
- Building study: Bill Dunster’s Hope House, Surrey
- Low energy hospitals: Wansbeck Hospital Final Report
- Folder: DHSS Low Energy Hospital Study
- Articles: Northern exposure
- Articles: Rainbow warriors
- Articles: A dynamic duo
- ENCODE: Energy efficiency
- HSE: energy conservation/1984
- Dalkia: Kingston Hospital Energy Centre
- Low energy hospitals: St. Mary’s Hospital, Isle of Wight-final report
- Building a better quality of life: A strategy for more sustainable construction
- Department of the environment, transport and regions
- Briefing: Healthy and sustainable
- HSE/Issue No.48
- Architecture Library
- The Martin Centre for Architectural and Urban Studies
- Quality care for life-St. Mary’s
- The second low energy hospital study report
- The community’s second energy R&D Programmed /1979-1983
- St. Mary’s Hospital, Isle of Wight

ENERGY EFFICIENCY FOLDER 98

- Energy efficient refurbishment of hospitals
- Foresight: Energy Futures Task Force
- Foresight: Stepping Stones to Sustainability
- Foresight: Energy and natural environment panel
- Energy consumption guide 72: Energy consumption in hospitals
- Foresight: Energy for Tomorrow (Powering the 21st century)
- Electricity savings in hospitals: A guide for energy and estate managers
- Saving energy in primary health buildings: An introduction for practice managers
- Energy Efficiency in Buildings-Courts, Depots and Emergency Service Buildings
- Energy Efficiency in Buildings-Health care Buildings
- The low energy hospital
- Building Design for energy conservation
- Energy Research Group 1972-1980-the Open University
- Solar energy applications in architecture 2/74
- Energy efficiency in buildings: Publications
- Reducing energy consumption of primary care buildings
- Energy Efficiency in Buildings-Entertainment
- Energy Efficiency in Buildings-Sports Centers
- Energy Efficiency in Buildings-Catering establishments
- Article: Northern Exposure

ENVIRONMENT AND PERFORMANCE FOLDER 99

- Article: Cool and Collected
- Paper: Conservation of fuel and power
- Hawke Research Institute-Working paper series no.27: Social Sustainability towards some definition
- Article: Sustaining Sustainability in the built environment
- Achieving energy efficiency in new hospitals
- Low carbon design initiative (report on site visit, assessment parameters and sheets
- Article: Internet Scheme to save on waste
- Sustainable water management in land use planning
- A sustainable healthy urban environment for everyone/1998
- RIBA Enterprises: Closing the loop: Benchmarks for sustainable buildings
- Article folder: Taking the green option
- Building research station: Investigations on summer overheating at the building research station, England
- The case for British coal in hospitals
- Article: Managing water—a key issue in flood risk
- Article: Risk assessment for contaminated land—the way forward
- CIRIA pushing forward sustainable water management
- Bedrock Article: Green roof success story
- Energy management: Good Housekeeping
- Article: Green code
- Article: Energy and green issues
- Article: Upwards and onwards
- Article: Green gauge
- Article: The green guide
-Article: We should design for low light levels and provide good task lights for detailed work
-Article: Outlook-energy efficiency guide
-Article: Ground force
-Article: Carillion cuts waste bill in Swindon PFI hospital
-Overview case study –an environmental management system
-Article: Transferable
-Article: Softer-Sustainable design for healthcare is just not about the building phase, but also about occupancy
-Article: Branching out
-Article: Sustainable case studies
-Article: Waterworks

LIGHTING IN HOSPITALS FOLDER 100

-An investigation on the areas and locations of sunlight patches in patient rooms
-Lighting and color for hospital design
-Article: On the water front
-Article: Raising the standard
-Interior design article: the sound of the soul
-An investigation of the acoustic environment
-Lighting guide: Hospitals and health buildings

LIGHTING IN HOSPITALS FOLDER 101

-The real value of windows in hospitals: An evaluation of the cost consequences of varying the degrees of fenestration in hospitals and an examination of the functions of the window
-The Hospital Centre/6 Aug. 1964
-Color 73-The second congress in the international color association held at the University of York 2-6 July 1973

LIGHTING IN HOSPITALS FOLDER 102

-Transactions of the illuminating engineering society
-Permanent supplementary artificial lighting of deep hospital wards with an estimate of costs in use
-Lighting for hospital patient rooms
-Article: Northern lights
-Article: Glare from artificial lighting installations
-Lighting for Health care facilities
-Health service facilities planning note 2
-Building Research: Current papers
-Hospital Lighting –Technical report of the illuminating engineering society
-Hospital Lighting-RADA+BLR
- International lighting review 72
- FALKS-hospital lighting fittings
- CIBS-Lighting guide: Hospitals and health care buildings
- Hospital Lighting Design: Report on an experimental bibliography
- Nucleus study no.18-Daylight study of multibed rooms in acute wards
- Nucleus: Natural Lighting
- Development in innovative daylight
- Transactions of the illuminating engineering society: Discomfort glare and the lighting of buildings
- Aims and obstacles in the Ophthalmic Clinic

LIGHTING COLOUR FOLDER 103

- Color Application in Nucleus Hospital Interiors
- NBS Special Publication 516: Colour in the Healthcare environment
- Lighting and color for hospital design: A report on an NHS Estate Funded Research Project
- HD Hospital Development: Light and Space
- Permanent supplementary artificial lighting of deep hospital wards with an estimate of cost use
- Design series 48: Building Research: Current papers
- Article: Highlighting Quality
- Window design and Solar Heat Gain
- Current Practice in Hospital lighting (2)
- Paper: The principles of hospital Lighting
- Building Research Station: Integrated daylight and artificial lighting in buildings
- Department of scientific and industrial research: The lighting of hospitals-some basic principles
- Lighting and acoustic criteria for the visually handicapped and hearing impaired in schools
- Article: design Dilemma
- Article: Seeing the light
- Paper: Environmental research and Building Practice
- Paper: The lighting of hospitals (paper 2)
- Building Research Station: Transmission characteristics of window glasses and sun-controls
- I.E.S Summer Meeting Article
- Article: Daylight and Artificial Lighting in Relation to Hospital Planning
- Paper: The lighting of hospitals (paper 1)
- Paper: Lighting in the modern hospital-Ward illumination and the I.E.S code
- The lighting of compact plan hospitals
- Article: New colors for new arrivals
- Hygeia Color Therapy Folder
- Article: Sensual Healing
- Workshop on window design considerations for health & well-being

VENTILATION FOLDER 104
- Total energy management for hospitals
- Paper: Association of ventilation with health and other responses in commercial and industrial buildings
- Total Energy management for nursing homes
- The combustion engineering association: Meeting Report
- Evaluation Study of the engineering service parameters: Notes on boilers for hospitals
- The effect of fuel cost increases on hospital costs
- Paper: Hospital Energy consumption and costs
- Paper: Analysis of energy Audits at 48 Hospitals
- Health service facilities-planning notes
- Paper: Discussion on the ventilation of operational theatres
- Solar Energy for Healthcare Institutions

### NOISE/ACOUSTICS IN HOSPITALS FOLDER 105

- University of Glasgow: Faculty of engineering (x2)
- Health service facilities planning note: Climate, Human comfort, Building form, Ventilation
- Building services Research Unit – University of Glasgow
- University of Glasgow: The ventilation of the deep-plan buildings using lightwells and courtyards
- Paper: Temperature and humidity swings in hospital ward areas
- Hospital Engineering Research Unit: Proposals and investigation schemes for the air conditioning, heating and ventilation of the experimental ward unit

### VENTILATION FOLDER 106

- Care about Sound - The sound environment in healthcare facilities
- Acoustic standards in hospitals: A comparative study between Italy and the UK
- Acoustic design for Health: A study of a coronary Critical Care unit
- A publication of the Acoustic Society of America
- Summary of the research project: Acoustic Work Environment and Health (x2)
- Code of functional requirements of buildings: Sound insulation (houses, flats and schools
- Acoustic Design for Health-a study of a coronary Critical Care Unit
- Insulation against aircraft noise
- Specification of acoustic design criteria
- Acoustics in Healthcare

### MAINTENANCE FOLDER 107

- Sheffield Regional Hospital Board: Design Manual no.17
- Indoor climate systems and installations
- Building Service Research Unit: Experiments in hospital ward ventilation
- Dental Compressed air and vacuum systems NHS
- The fundamentals of natural ventilation of houses
- Hospital engineering research unit: A study of the performance of the air conditioning plants at the operating theatre suites
- Filtration in Medical and health Engineering
- The effect of glazing and building orientation on hospital air-conditioning costs
- Commissioning of engineering services: Air conditioning
- AAMI Standard: BIER/EO Vessels

HOSPITAL SIGNPOSTING FOLDER 108
- Hospital signposting
- Helvetica medium: Folder

DESIGN/CONSTRUCTION FOLDER 109
- Better Health Buildings NHS
- Delegate’s Memopad: Design as a value generator
- Design quality: Function, sustainability and therapeutic
- Design quality in selected PFI Hospitals MARU
- Can we measure the quality of design in buildings?
- Improving the quality and design of healthcare buildings
- The design research realms
- Treasury taskforce private finance: Note no.7
- CRISP Consultancy Commission: A review of current industry and research on design: final report
- Report on the CRISP Design Task Force Group workshop

WAY FINDING FOLDER 110
- Health technical Memorandum: Signs
- Toxic Treatments
- Guide to Health Signs: How to select Health Signs for your particular needs
- Noise: Seldom adds to our joys
- Signs and graphics for health care Facilities
- Article: Altered images
- Hospital Way finding: Arts for health
- Welcome to hospital wayfinding: A review of user-friendly signs by Stephen Nicoli
- Welcome signs Article
- A Swedish Hospital standard for signposting symbols
- NHS Estate Way finding Research Project
- How to do it: Signpost your hospital

ART FOLDER 111
- Music and the Mind
- First impressions, lasting quality
- Hospitals and their art: A historical and contemporary perspective 1997
- Arts and Health in the North Western Regional Health Authority
- The Arts in a Health District: guidelines based on a case study
- Hospital Arts Centre: Art in the National Health Service
- Art and Healthcare
- Occasional paper: Arts and Health Past present and Future 1996
- Article: The art of healing
- Hospital Arts-Annual report 1994-5
- Art in Hospital Project
- Article: Sense and sensibility
- The 2003 Society for the Arts in Healthcare Conference: Inspiring a new tomorrow
- Symposium abstract: Culture, Health and the Arts
- Project Report: Healing Arts Isle of Wight
- Art in hospitals: Two case studies
- The independent: Patients put in the picture
- Article: Learning by experience
- Arts for health: Tangible benefits to the quality of care
- World News: Helping to heal
- Items Available from Arts and health
- The art of good signage
- Article: A theatre for health-The Chelsea and Westminster Hospital’s arts project
- Artery: Banners for the Chelsea and Westminster Hospital
- Artery: Percent for Art in the NHS
- Artery: Better buildings make patients better healthcare environments 1995
- Artery: Helping to heal
- Artery: Better by design
- Artery: The Arts for health concept –An exhibition at the British Council promoting arts and health in the northwest
- Artery: Helping to heal
- Artery: Chairman of the arts council of the Great Britain supports the partnership of the ARTS and HEALTH
- Artery: Creating healthcare environments –Conference
- Artery: Shopshape on the Isle of Wight
- Artery: Better buildings make patients better –Healthcare environments 1995
- Arts for health: Arts and health in Ireland
- Project Report: Looking forward to looking back –the Manchester reminiscence project
- Project Report: Artists in Residence Programmed Hospital
- Arts in Hospital
- Arts for health
New art Centre Sculpture Park and Gallery
Dan Graham: At Harewood House, Leeds, UK
Art and Architecture
Helping to Heal: The Arts in Healthcare (x2)
Royal Hospital NHS Trusts Arts Project: Design for Life
Culture, Health and the Arts – an Anthology: A powerful source for good
Improving the patient experience: The art of good health (x2)
Art in Hospital Project
The future for arts and health: A research paper examining the development of the arts and health sector and exploring conditions for its sustainability
Exploring the patient environment: An NHS estates workshop
The art of designing special places
Manchester Hospitals Arts Project
Article: Art in extremis
Article: Seeing through patients eyes

ART FOLDER 113

Art and Healthcare
Human Centered Design for Health Care Buildings: Proceedings
Artery the Journal of arts for Health num.14/1996
Hospital Arts Centre-Art in the National Health Service
The Arts in the Health District: guidelines based on a case study
Poole Hospital: Development control plan to the year 2000
Design Therapy Folder

ART FOLDER 114

The arts in healthcare
Royal Aberdeen Children’s Hospital: Arts Project
West Wing: Making art and architecture work for health
Modernity in Healing and learning: The architecture of Anshen+Allen
The arts in healthcare: Learning from experience
For Art’s sake? Society and the arts in the 21st century

HEALING ENVIRONMENT FOLDER 115

Healing the Hospital
Environmental Design Quality in Healthcare
Wythenshawe Hospital: Design Field Study
Evaluation of Enhancing the Healing Environment Programmed

ENHANCING THE HEALING ENVIRONMENT FOLDER 116
-Enhancing the healing environment Folder

HEALING ENVIRONMENTS FOLDER 117

- Hospitals and healthcare facilities
- Healing with color
- The healing environment: Without and within
- Healing the Hospital Environment

LANDSCAPING FOLDER 118

- Interstitial space in health facilities: Research study report
- New urban environments: British Architecture and its European Context
- Art and design for health in the UK: Nature/Healing
- A King’s fund report: Landscape Architecture for new Hospitals (x2)
- Healing gardens: Therapeutic Benefits and design recommendations

HOSPITAL GROUNDS FOLDER 119

- Hospital Grounds: Maintenance
- Hospital Grounds: Landscape
- Hospital Grounds: Utilization

ART ARCHITECTURE FOLDER 120

- Trust Art Project
- Improving the patient experience: Welcoming entrances and reception areas
- The Exeter evaluation: Exeter Health Care Arts
- Art for Hospitals
- Art and visually impaired people
- The Exeter Evaluation: Evaluation Research Project of Exeter Health care Arts
- Research Report 36: Arts in health: a review of the medical literature

DESIGNING FOR PATIENTS FOLDER 121

- Article: Breaking down the barriers
- Article: Patient focused hospital
- Healing environments at the century mark: The quest for optimal patient experiences
- The therapeutic environment
- The environment for care – An NHS estates symposium
- Improving the patient experience: Evaluation of the King’s Fund’s enhancing the healing environment programmed
- Patient focused architecture for health care
-Improving hospital design: a report on the King’s Fund hospital Competition for 1993
-Therapeutic environments
-Paper: The planetree philosophy
-Designing for patients
-Environments for quality care: Health buildings in the community
-Environmental design quality in health care
-Wythenshawe Hospital: Design field study

HEALING ENVIRONMENTS FOLDER 122

-Articles Folder: Numbers carry a vibration. If your house number is 8 you are living with the influence of abundance and material wealth
-Health impacts of healing environments: A review of evidence for benefits of nature, daylight, fresh air, and quiet in healthcare settings
-What are the design aspects that contribute to a healing environment?
-Article: studying nature
-Article: A little understanding
-Design strategies to assist healing paper
-Life-enhancing design: A workshop for facility decision makers on the value of life enhancing healthcare design
-The business case for better buildings
-The Autonomous Patient: Ending paternalism in medical care
-Patient focused care
-XVIIIth International Public Health Seminar, UIA-PHG at the Aristotle University of Thessaloniki Greece 04-07 June 1988: Healthcare buildings as Supportive Environments
-Article: Designing for patients
-Article: Designing that cares
-Paper: Design technology: Life-enhancing sound design
-Article: A challenging place to discuss healing spaces
-Evidence based Design for Healthcare
-Picker Institute Europe
-Enhancing the healing environment: A guide for NHS trusts

HEALING ENVIRONMENTS FOLDER 123

-The Architectural Healthcare Environments and its effects on patient health outcomes NHS
-Hospital Decorations
-White Paper: The role of lighting in promoting well being and recovery within healthcare
-Evidence Based Design Architecture as Medicine? -Proceedings of an international symposium held at the University Medical Centre Gronigen, The Netherlands 2003
-Report: Healing Environments-Places and Settings Needs and Responses
Designing for patients
-Paper: Designing for patients: a strategy for introducing human scale in hospital design
-Healthy building
-Folder Articles: Designed to heal
-Articles Folder: Cultivating change
-Better Health Buildings: good design is a commitment to a better quality of life
-Breaking down the barriers: A question of space
-Healing environments: New typologies for health care architecture

ENGINEERING IN MEDICINE/PHARMACY FOLDER 124

-Guide to Good Pharmaceutical Manufacturing Practice 1977
-Engineering in Medicine
-National Radiological Protection Board
-Guide to Pharmaceutical Manufacturing Practice 1983
-Planning for Hospital Pharmacies
-Electrical Engineering: Measured Term Contracts)(x2)
-The management of health buildings projects
-Pharmacy Planning
-Standard Contract Particulars and general matters for inclusion on preliminary bills for main contracts
-Supplementary annexure to ace model form of agreement 'D' (as amended and modified)
-Sections 12-14 of the health services act 1976 amended by the health services act 1980

SUSTAINABLE CONSTRUCTION FOLDER 125

-Papers from the Fifth International Congress of hospital Engineering 1978
-Health Service Facilities planning notes
-Articles folder: Putting your foot down
-Therapeutic landscapes and hospital design
-Indoors plants :Improving the indoor environments for health, well being and productivity
-A post-occupancy evaluation of the Three Pediatric Healing Gardens
-DOREST: country houses and gardens
-Hospital Wildlife Gardens MARU
-Achieving Spiritual Balance Landscapes of Healing Gardens
-Healing Gardens: The garden as a treatment milieu
-I’DGO Project
-Article: Critic at large ‘Kids like to do stuff’
-Paper: Mollie’s garden 1999
-The Centre for Health Design: Gardens in healthcare facilities-uses, therapeutic benefits and design recommendations
-Healing Gardens 2 Paper
-Article: Hospital Wildlife Gardens
- Symposium Update Article
- The value of better health buildings
- Gardens and grounds in old people’s homes
- Gardens. Grounds and the Countryside: Design Adaptations and Use for Handicapped People
- Gardens and Grounds for Disabled and Elderly People

**ADULT ACUTE WARDS FOLDER 126**

- Improving the patient experience: Space around the bed for privacy and dignity
- Inpatient single-bed hospital accommodation: Ward sizes and layouts
- Improving the patient experience: ward layouts for privacy and dignity
- Space around the bed-NHS Estates
- In patient accommodation: Options for choice note 4
- Health Building note 4: Adult Acute Wards (x2)
- DBS4: Adult Acute Wards-Department of health and the Welsh Office
- DBS1: An aid to briefing

**MEDICAL RECORDS/IT/NEW TECHNOLOGY FOLDER 127**

- Health Building Note 47
- Dasis: Computerized Health Information Systems
- Medical Records-OPD for Newham
- Using computers to improve health services
- Medical Records Operational Policy
- Medical Record Linkage: Published to the Nuffield Provincial Hospital Trust by the Oxford University Press
- Focus on medical computer development: A study of the Scottish scene by Scientific Control Systems Ltd.
- Medical Records and Secretarial Services
- Housekeeping: A first guide to new and dependable ward housekeeping services in the NHS
- Centrepiece: Libraries in Hospitals
- The flow of medical information in hospitals
- Evaluation of Hewham General Hospital-medical records department
- How to use a medical library?

**HOSPITAL DEPARTMENTS FOLDER 128**

- The casual patient caseload problem in accident services planning
- Methods for experimental comparisons of an alternative generic layout types (x2)
- Layout in the accident and emergency department: An interim report as part of a project carried out for the department of health and social security
- The use of resources in Accident and Emergency departments
-Layout in the Accident and Emergency department: An interim research report as part of a project carried out for the department of health and social security
-By Accident or Design: Improving A&E services in England and Wales
-Accident and Emergency department-Health Building Note 22
-3 case studies: Day surgery service provision
-The case of day surgery in three member states of the European union
-Guidelines for the NHS Treatment Centers run by the independent sector on behalf of the NHS
-Guidance for developing signage for Primary Care Centers
-Health Update 4: Sexual Health

TELEMEDICINE FOLDER 129

-Information Technology and Buildings: A practical guide for designers
-Thoughts Leaders: Essays for health innovators
-Telemedicine: Explorations in the use of telecommunications in health care
-Structured cabling for IT systems
-Medical Records –second edition
-Legal and Ethical Aspects of Telemedicine

IT FOLDER 130

-Article: Patient care by computer
-Development of a general computer-aided appraisal system for whole hospital design
-Article: Voice over
-The impact of information technology on the design of future health buildings
-Impact of information technology on the design of the future health buildings
-Notes for simulation package folder
-Healthcare computing 1990
-Healthcare computing-FM: a guided tour
-Developing a district IT policy
-Article: Safer by design
-Mitigation: Disaster mitigation guidelines for hospitals and other health care facilities in the Caribbean
-Specializing in health and safety-Strategy Statement June 2000
-Guidelines for assessing disaster preparedness in the health sector
-Assessing the effects of health technologies
-The British Journal of healthcare computing
-The British Journal of Healthcare Computing

TELEMEDICINE FOLDER 131
-Patient satisfaction with telemedicine in home health services for the elderly
-Evaluation and refinement of a Design Framework for generating dependable virtual companions for later life
-SPRU (electronic working paper series 18) a changing sense of place: are integrated IT systems reshaping the home?
-E-Telehealth and home Telecare (New Community outreach programs of the modern hospital?) 2002
-Paper: Systematic review of studies of patients satisfaction with telemedicine
-Paper: Telemedicine: a cautious welcome
-Systematic review of studies of patient satisfaction with telemedicine
-UK National Database of Telemedicine
-An update on telemedicine 2000
-Telemedicine: Health Guide Note
-The Journal of the America association 1996
-Practical Solutions of the integration of Community Alarms Assistive Technologies and Telecare
-The impact of medical technologies on the future of hospitals
-JAMA-The Journal of the America Medical Association 1999
-Distance technologies of patient monitoring
-Telemedicine: lessons remain ...
-British medical Journal Paper 1999
-Telemedicine: The way forward
-Telemedicine beating waiting lists
-Telemedicine-the Virtual Hospital or Virtually no Change?
-Article: Telemedicine
-Case Study: Crosshouse Hospital Gets with BT Videoconferencing
-Case Study: Community Intranet
-Article: Telemedicine beating waiting lists

**OPERATING THEATRES FOLDER 132**

-Hospital Building Note 26:Operating Department
-Hospital Building Bulletin No.1:Operating Theatre Suites 1957
-Health Building Note 26:Operating Department
-Wellcome: Modular surgical unit
-Newcastle regional hospital Board: General principles Regarding Requirements in operating Suites
-Operating Theatre Suites 1960
-North West Metropolitan Regional hospital board standard room sheets-operating theatre suite
-Hospital Engineering Research Unit: Summary of the study of the water, electricity and medical gas services in operating theatre suites
-Articles: Spa
-Article: Get it right first time
-St.Peter’s Hospital Chertsey-Operating and Central Sterile Supply Department
-Welcome Industrialized Modulate Theatre: Mechanical Specification
- Welcome Industrialized Modulate Theatre: Structural Analysis
-A study of the Performance of the Air Conditioning Plants at Three Operating Theatre Suites
-Twin Operating Theatre Suite and reconstructed hospital kitchens at St.Andrew’s Wing, Dollis Hill, London
-A laboratory study of the downward displacement system of ventilation in operating theatres
-Heating and ventilation of hospital operating theatres

STERILIZING FOLDER 133

-Planning a regional central sterile supply service
-The Planning and Organization of Central Syringe Service
-Studies of sterile supply arrangements for hospitals: Present sterilizing practice in six hospitals
-The Sterilization, Use and care of Syringes
-Theatre Service centre
-A manual for hospital central medical and surgical supply service
-Army Medical Directorate Bulletin
-A study of Hospital Central Medical and Surgical Supply Services
-Central Sterile supply departments
-Article: Letting off (clean) steam the implications of HTM2031
-British health care and technology: CSSD and General Services
-Hospital Planning Nites: Planning of Central Sterile supply Departments
-Hospital Building note 13:Central Sterile Supply System
-Standardization of supplies from Central Sterile Supply Departments
-Research Report: Hospital Design 6
-Administrative aspects of Hospital Central Medical and Surgical Supply Service
-PARDES: Medical support and compression stockings

STERILIZING FOLDER 134

-Atmospheric Polluting by Anesthetic Gases Folder
-HSDU Pinderfields Hospital, Wakefield (Evaluation no.2)
-CAPE-central sterilization department planning guide
-British Healthcare and technology
-Theatre sterile supply Unit
-British Hospital Journal and social service review: sterile Supplies and environment
-Health technical memorandum 10:Sterilizers
-A workload model for hospital sterilizing and disinfecting units
-AUDIT Commission :Occasional papers-value for money in NHS sterile services
-Health Building Note 13:Sterile services department
-AHA hospital Ethylene Oxide Sterilization
-AAMI Recommended Practice: Good Hospital Practice-Ventilation Recommendations and Safe Use
-Report of the Committee appointed to inquire into the circumstances, including the production which led to the use of contaminated infusion fluids in the Davenport Section of Plymouth General Hospital
-A guide to the health and Safety Regulations 1981
-Evaluation of Newham general Hospital

OUTPATIENTS FOLDER 135

-Hospital Planning Note 6: Organization and design of the out-patients department
-The environmental issues of planning and design of operating theatres
-Central Sterile supply: Principles and Practice (x2)
-Planning a regional sterile supply service (x2)

RADIOLOGY FOLDER 136

-Building and Extending a Radiology Department: A Practical Guide to Planning and Project Management
-Advanced in medicine: Blood and sweat
-Article: The American way
-Article: Design Research
-Article: Full metal jacket Article: Laboratory conditions
-Strategic Proposals for the development of the X-Ray Department
-Building or extending a hospital department: Radiology
-How to manage Radiology Services more effective
-The future for imaging
-Minimizing patient waiting times in radiology
-DBS6: Radiodiagnostic Department

RADIOLOGY FOLDER 137

-Health Building Note 15: Accommodation for pathology services
-Hospital Building Note 6: Diagnostic X-ray department
-The planning of radiotherapy departments
-Radioisotope Services: A design guide
-Handbook of radiological protection
-Health Building Note 6: Supplement 1
-Health Building Note 6: Radiology department

OPERATING THEATRES FOLDER 138

-The environmental issues of Planning and Design of Operating Theatres
-Central Sterile Supply: Principle and practice (x2)
-Planning a Regional Sterile Supply Service (x2)

RADIOLOGY FOLDER 139

- The design of Research Laboratories
  - Article: Improving the design of your radiology department IV – lighting
  - Article: Shell and suites
  - Health Building Note 15: Pathology Department
  - Modeling support for pathology services with reference to the evaluation of the drop programmed- appendices 1991
  - Modeling support for pathology services with reference to the evaluation of the drop programmed-report 1991
  - Article: Computers in the laboratory: getting it right

RADIOLOGY FOLDER 140

- The European Association of Radiology-an overview of radiology
  - Centre for Research on Professions Allied to Medicine: Evaluation of the implementation and management of skill mix in diagnostic imaging centers
  - Radiology ultrasound plans
  - NEMT: Magnetic Resonance Imaging in the Nordic Countries
  - Planning a diagnostic radiology department
  - Hospital Building Note 19: Department of medical photography and medical illustration
  - Functional scale paper: Medical physics and environmental radiation research unit M.R.C
  - Report of the working party of the organization of Radioactive Isotope Services

PHARMACY FOLDER 141

- Health Building Note 6: Radiodiagnostic Department
- Health Building Note 29: Accommodation for Pharmaceutical Services
- Accommodation for pharmaceutical services 29(x3)
- Hospital Building Note 29: Pharmaceutical Department
- Evaluation of Newham General Hospital: pharmacy department
- Pharmacy operational policy
- Health Equipment Note 29: Pharmaceutical Department
- DBS 29: Accommodation for Pharmaceutical Services

OUTPATIENTS FOLDER 142

- Waiting in Outpatient Departments
- Gateway or dividing line? A study of hospital outpatients in the 1960’s
- The Hospital Departmental design model
- An Axonometric Hospital: Departmental Design Model
- DBS12: Outpatients Department
-Project Report and data file
- The Architectural Healthcare Environment and its Effects on Patient Health Outcomes
- Hospital Building Bulletin 4: Waiting space and circulation in outpatient departments

OUTPATIENTS FOLDER 143

- Hospital Planning Note 6: Organization and Design of the outpatient Departments
- The Stephen’s Hospital Chelsea: new outpatient departments
- The Stephen’s Hospital Chelsea: outpatients’ department
- Hospital O and M Service Reports: outpatientWaiting times
- The application of the hospital departmental design model to an outpatient department
- The hospital departmental design model
- CEH DESIGN GUIDE 1: Improving existing hospital buildings for long-stay residents

OPD FOLDER 144

- DBS 12: Out-patients Department
- Facts and Trends on Hospital Outpatient Services
- Recommendations by the Scottish Home and Health Department for the Design of the standard consulting/examining room
- The consulting suite
- Hospital Planning Note 6- Organization and design of Outpatient Departments
- Designing for Outpatient Services: a discussion paper 1981
- Clean Room Technology in Health Buildings
- Scottish Home and Health Department: Organization of design of out-patient departments: second draft
- King’s Fund Project Paper: Being an Outpatient
- Nucleus study no.2: Outpatient department
- Health Building Note 12: Out-patients Department
- The Hospital Departmental Design Model
- Health Building Note 12: Out-patients department
- DBS 12 Outpatients Department
- Nucleus Hospitals: planning principles
- Plans and papers
- Designing for outpatient Services-Noble
- Nucleus-evaluation study no.4-operating department
- Hospital Equipment Note 12-outpatient department
- The Application of the Hospital departmental design model to outpatient department
-Hospital Building Note 28: Dental Departmental of the out-patient department
-Quantitative analysis and planning of the outpatient department
-The axiomatic hospital: departmental design model
-Proceedings of a symposium: The relative values of the combined consulting /examination room or of separate consulting and examination rooms
-A study of one aspect of the flexibility in outpatient department planning

OPD FOLDER 145

-ORS: Reducing waiting time in out-patient departments
-Project Report and data file-St. Thomas Hospital
-Outpatients Department-operational policy
-Quantitative analysis and planning of the outpatient department
-North West Metropolitan Regional Hospital Board
-Scottish Hospital Planning Note 12: Out-patients Department
-The Hospital Departmental Design Model
-Management services NHS 2: The work of nurses in outpatient departments
-Future Space requirements for outpatient services at the Royal National Throat Nose and Ear Hospital

OPD FOLDER 146

-A study of one aspect of flexibility in outpatient department planning (x2)
-Article: Planning of out-patients departments
-Project Report and data file-St. Thomas Hospital
-The use of resources in A&E Departments
-Operational Research Unit: Outpatients
-Consulting room accommodation in a new outpatient department for a teaching hospital 1961
-Hospital Planning Note 6: Organization and design of outpatient departments
-DBS 12 -Outpatients department
-Hospital Building note 28: Dental Department of the outpatient department

OPD FOLDER 147

-Action on Outpatient services
-Waiting in outpatient departments
-The use of verbal call systems to call patients from waiting areas to consulting rooms
-Health Building Note 39: Ophthalmic Clinic
-Putting patients in the picture
-King's Fund Project Paper: Being an outpatient
-A study of the one aspect of flexibility in outpatient department planning
-Improving the outpatient environment
-Special Treatment Clinic: A design guide 1974
-Health Building Note 12: Genito Urinary Medicine Clinics
-Scottish Hospital Centre Information Sheet
-Health Building Note 12: Oral surgery and orthodontic department
-ORS: Reducing waiting time in outpatient departments
-Hospital E.N.T services: A design Guide 1974
-Radio diagnostic Department
-Health Equipment note 39: Ophthalmic Clinic
-Hospital Building Note 28: Dental Department of the outpatient Department
-Radioisotope Services: A design Guide
-Accommodation for Hospital Dermatology Services
-Special Treatment Clinic: A design guide
-Department of Health: Guidance on Accidents involving radioactivity
-Health Building Note 12: Out-patients department 1987

MORTUARY FOLDER 148

-Health Building Note 20: Mortuary and post-mortem room (x2)
-Hospital Building Note 20: Mortuary and post-mortem room (x3)
-Health Building Note 20: Mortuary and post-mortem room draft 1987
-Paper: Mortuary
-The Joint Hospital and Local Authority Post Mortem Unit
-Nucleus: Projects Information bulletin no.9

MEDICAL LABORATORIES FOLDER 149

-The safe use of ionizing radiations: a handbook for nurses
-Health Building Note 15: Accommodation for Pathology Services (x2)
-Laboratories: Hospital Healthcare Europe 1998/99
-Health Equipment Note 15: Pathology Department (x2)
-Pathology Guide
-The Laboratory Buildings: Ulleval Hospital
-The Economics of adaptability: A comparative study of the initial and life costs of partitions
-An approach to laboratory buildings: a paper for discussion
-Adaptable laboratories: Practical observations on design and installation 1974
-Research Laboratories: Design for flexibility
-Article: Moving the benchmarks
-Hospital Building Note 19: Department of medical photography and medical illustration
-Adaptable furniture and services for education and science 1972
-Koch-Light Laboratories Ltd.: The design of laboratories for radioactive and other toxic substances
-The Charles Darwin Building: Bristol Polytechnic
-OPD Laboratory Services
-Laboratory services
-Evaluation of Newham General Hospital: Pathology Department
-Designing for science-Oxford School development Project
-Paper no.13: Pathology Laboratories
Radioisotope Services: A design Guide 1973
Hospital Building Note 19: Department of medical photography
Hospital Equipment Note 19: Department of medical photography and medical illustration

**IMAGING X-RAY FOLDER 150**

- Department of Radiation Oncology: Annual Report 2001
- Planning of Radiotherapy Facilities: Report of a joint IAEA/WHO meeting
- Hospital Building Note 6: Diagnostic x-ray department
- Article: Design Guide - Computerized Tomography
- Design Guide MRI Suites
- Health Building Note 6: Accommodation for magnetic resonance imaging
- Health Building Note 6: Radiology Department 1991
- Health Building Note 6: Radiology Department
- Paper: Diagnostic Imaging introduction
- Diagnostic Imaging: Hospital Healthcare Europe 1998/99
- Radiation Protection in Healthcare: The role of lead
- Article: The wake of Silver Recovery part 1
- Research and development Unit: Organization and design of Radiodiagnostic Departments
- Evaluation of Newham General Hospital: X-ray Department
- Royal free Hampstead NHS Trust: Strategic Proposals for the development of the x-ray department
- Health Equipment Note 6: Radiodiagnostic Department
- Design Briefing System DBS 6: Radiodiagnostic Department
- Health Equipment Note 6: Diagnostic x-ray department

**INTENSIVE CARE FOLDER 151**

- Critical care services
- Intensive Care - Healthcare equipment & technology
- Surgical Departments in Hospitals: The surgeon’s view
- Operating Theatres and Ancillary rooms
- The Planning and Operation of an Intensive Care Unit: an experience brochure (x2)
- Comparisons of intensive nursing service in circular and a rectangular unit

**INTENSIVE THERAPY FOLDER 152**

- A model for the design of Intensive Care Units
- Hospital Building Note 27: Intensive Therapy Unit (x2)
- Intensive Therapy Units - A case study analyses
- Critical Care Article: £2.4m improvements unveiled
- Paper - Adult Day Care
  - Treatment Suites
  - Overnight Stay
-Intensive Therapy Unit
-Health Building Note: Intensive Therapy Unit
-Evaluation of Newham General Hospital: Intensive therapy/coronary care unit
-Designing the critical care room for flexibility
-Health Building Note 27: Intensive Therapy Unit
-Intensive therapy section operational policy
-Intensive Therapy and Coronary Care Units: Postal Survey Report
-Standards for Intensive Care Units prepared by The Intensive Care Society
-Cardiocvascular Services in Hospitals: Guidelines
-Health Building Note 27: Intensive Therapy Unit

MAIN ENTRANCES/SPACES FOLDER 153

-Health Building Note 45: External works for health buildings
-Health Building Note 51: Miscellaneous Spaces in a district general hospital
-Health Building Note 51: Accommodation at the main entrance of a District General Hospital (x2)
-Health Equipment Note 34: Works Department for District Hospitals and Teaching Hospitals (x2)
-Paper: Main Entrance
-Improving the patient experience: Welcoming entrances and reception areas
-Health Building Note 45: External works for health buildings
-Design Guide: The design of hospital main entrances

STORES/SUPPLIES FOLDER 154

-Working party on codification of hospital equipment and supply: Report
-Article: Our friends electric
-Evaluation of Newham General Hospital: telephone exchange
-Nucleus study no.20: Whole Hospital Policies; support services: linen
-Discussion paper: Linen handling at Pinderfields General Hospital
-Paper: Supplies technology division
-Abstract of Efficiency Studies in the Hospital Service
-National Health service supply vocabulary: general preface
-Article: Waste not, want not
-Health Building Note 25: Laundry
-Health Equipment Note 25: Laundry
-Hospital Building Note 25: Laundry
-Evaluation of the materials-handling system at the Cumberland Infirmary
-City University: Development and application of Computer Modeling to Access Operating costs of Alternative Hospital Designs-Model 1: Linen Services
-Linen: A cost model of Hospital Linen Services User Guide
HOSPITAL DEPARTMENTS FOLDER 155

- Health Building Note 38: Accommodation for Adult Acute Day patients
- Health Building Note 4: Adult Acute Wards
- Design Briefing System DBS 4: adult Acute Wards
- Intensive Therapy and Coronary Care Units: Postal Survey Report
- Article: Design for living
- The logistics of supplying material to the user/May 1990
- Health Building Note 27: Intensive Therapy Unit
- Health building Note 27: Intensive Therapy Unit
- Planning for cardiac care: A guide to the planning and design of cardiac care facilities
- Nucleus: Intensive therapy unit: Planning principles and design description
- British health care and technology: Intensive Care
- Building design, planning construction and refurbishment
- Keeping in touch at G.O.S

CARDIAC FOLDER 156

- Cardiovascular Services in Hospitals: Guidelines
- CHEST: The cardiopulmonary and Critical Care Journal
- Royal College of Physicians: Second report of a joint RCP/RCS committee on combined medical and surgical units for cardiac surgery
- Facilities for cardiac services HBN 28
- Accommodation for cardiology at the freeman: A comprehensive development plan

HOSPITAL DEPARTMENTS FOLDER 157

- Health Building Note 39: Ophthalmic Clinic
- Health Building Note 15: Pathology Department
- Library Support for Health Care Services: A policy statement
- The Design of Medical and Dental Facilities
- Dental School Planning
- Articles Folder: Patient hotels-the high quality alternative to hospital wards

DENTAL FOLDER 158

- A code of practice for Sterilization of Instrumental and Control of Cross Infection
- Functional Analysis of 5 Dental Practices and analysis of maintenance and refurbishment costs 2009
- General anaesthesia, sedation and resuscitation in dentistry
- Review of dental practice 1972
- Article Folder: Designing for phobic’s
- Article Folder: The ‘Highlander’ mobile dental unit
- Design Guidance for New Built and Major Refurbishment for Facilities for the Provision of Primary Dental Care
- Paper - Organizational principles of dental practice
  - Location and access
  - Patient experience
- Dental services folder: Mixed spec.dept.
- Article: Building-Urban dentistry
- University of Leicester: Oral Health Academies Design Concept
- Article: This won’t hurt a bit

KITCHEN/CATERING FACILITIES FOLDER 159

- Hospital Kitchens
- British Health Care and Technology: British Hospital Catering
- Kingston Hospital: Restaurant and Stores
- University of Strathclyde: Hospital supporting services in Sweeden, Denmark and West Berlin
- A Health and Social Service Journal Supplement 1974:Catering
- Setting the pace: Electric systems and equipment for welfare catering
- C.S.I.R Research Report: The planning of a central unit for infant feed preparation in hospitals
- Hospital dietary services: A planning guide
- The GANYMEDE tray Service in Hospitals
- Kingston Hospital: Restaurant and stores
- Health Service Catering: Clean food
- Health Service Catering/issue no.2
- Paper: Interim report on exclusive and uncontrolled heat loses in kitchens
- General Conditions, which relate to all categories of hospital and health facility
- Health Service Catering: Safety at work (take care)
- Department of Health and Social Security: Domiciliary services meals, aids and adaptations 1982
- Managing nutrition in hospital: A recipe for quality

HOSPITAL SUPPLIES+STORES FOLDER 160

- Hospital waste management: Introduction to the audit
- Hospital Equipment Note 25:Laundry
- Management services 6:Organization and management of hospital linen services
- Article: Making waves
- Health Building Note 25:Laundry
- City University: Development and Application of Computer Modeling to Assess Operating Costs of Alternative Hospital Designs-linen services
- Hospital Building Note 16:Plant
- Nucleus study no.14: Whole hospital policies- support devices-domestic
- Article: Now Kunick buy hospital
- Centrepiece: Storage at point-of-use
- Department of Health: Hospital stores stock control and guidelines accommodation
- Material Handling & Distribution Systems
- Paper: Incinerators for clinical waste
- Nucleus no.7: Materials handling: linen and protective clothing
- Nucleus Study no.19: Materials handling: distribution services by tugs and trolleys with a ramp

CATERING FOLDER 161

- Health Building Note 10: Catering Department
- Nucleus Study no.10: Storage and materials handling- catering
- Management of food services and food hygiene in the National Health Service
- Design Briefing System: Catering Department
- Articles: Royal Brampton Hospital
- Health Building Note 11: Catering: Central food production unit and satellite accommodation
- Health Equipment Note 11: Dining rooms
- Catering production Unit: St. Nicholas Hospital
- Health Service Catering: Hospital Meal Survey
- Modern British Hospital Catering
- Hospital Building Note 10: Kitchens (x2)
- Hospital Building Note 11: Dining rooms (x2)
- Evaluation of Newham General Hospital: Catering Department
- Article: Food for Thought
- Modern British Hospital Catering

CATERING FOLDER 162

- Article Folder: In-house production skills-focused on warewashing problem
- Hospital Planning Note 6: Organization and Design of Out-patient Departments
- Health Building Note 10: Catering Department
- The Health Service Journal: Facilities Management
- Article: Dining on empty
- Building Study Folder: Restaurants and stores

CATERING FOLDER 163

- Health Equipment Note 10: Kitchens
- Hospital Building Note 10: Kitchens
- City University: Development and Application of Computer Modeling to Assess Operating Costs of Alternative Hospital Designs (x2)
-Health Service Catering: Hospital Meal Survey
-User Guide to Cater (A cost model of hospital catering services)
-Catering Sterilization Laundries
-Health Building Note 10: Catering Department
-Cook-freeze catering systems
-Design Briefing System 10: Catering Department 1985

**CLINICAL WASTE DISPOSAL FOLDER 164**

- The working party on the disposal of clinical wastes in the London area - Final Report
- The safe disposal of clinical waste
- Environment and the quality of life: Survey of the collection, recycling and safe disposal of the hospital wastes in the member states of the European communities

**A&E FOLDER 165**

- Design Briefing System Notebook DBS 22: accident AND emergency Department
- Health Building Note 22: Accident and Emergency Department
- The use of Resources in Accident and Emergency Departments
- Modern British Accident Centers
- Articles Folder: All systems go
- Accident and Emergency Services (x3)
- Hospital Emergency Service: Criteria for Organization
- Emergency Care Handbook
- Facilities for critical care / HBN 57
- Opportunities in Emergency Health Care: Summary report from the Anglia and Oxford emergency health care project
- An integrated Emergency Service: Some proposals for re-organization and future development of Emergency Departments within the hospital service
- British Orthopedic Association: Memorandum on Accident Services 1959
- Royal Institute of Public Administration: A&E Department
- Emergency Department organization and management 1975

**A&E RESEARCH PAPERS FOLDER 166**

- Departmental Design Series vol.3: Accident and Emergency Department
- Accidents and Emergency: A review of Emergency services
- Accident and Emergency Services: A guide to good practice
- Health Building Note 52: Accommodation for day care Medical investigation and treatment unit

**A&E FOLDER 167**
- Health Building Note 22: Trauma care and minor injury (x2)
- Health Building Note 44: Ambulance stations
- Examination of Newham General Hospital: Accident and emergency department
- An investigation into service areas of major accident and emergency units in greater London Council area
- The Organization of Resuscitation and casualty services 1967
- Fourth Report from the Expenditure Committee: A&E Services 1973
- HBN 22 Accident and emergency facilities for adults and children
- Health Building Note 22: Accident and Emergency Department in acute general hospital (x2)
- Supporting patient care in Accident and Emergency
- Modernizing A&E environments NHS
- Opportunities in Emergency Health Care: Summary report from the Anglia and Oxford emergency health care project
- A&E design evaluation: Evaluation of the two proposed accident and emergency departments: Brent Emergency care and diagnostic centre at central Middlesex hospital and exemplar plan
- Paper: Emergency Services
- HBN 22 Accident and emergency facilities for adults and children
- Health Building Note 22: Accident and Emergency Department
- Emergency Care Handbook

AMBULANCE FOLDER 168

- Out-patient Departments and the Ambulance Service
- Related Articles Folder (x2)
- Ambulance and other patient transport services: Operation, use and performance standards
- Royal Institute of Public Administration: Ambulance maintenance in mid-Glamorgan
- Royal Institute of Public Administration: Non-ambulance transport—what it costs?
- Design Study no.1-Small
  - Ambulance
  - Station
  - Working
  - Party
  - Report

ADMIN TELEPHONES FOLDER 169

- Health Building Note 48: Telephone services (x2)
- Design Briefing System Notebook DBS 48: Telephone Services
- Hospital Building Note 18: Administrative Department (x2)
- Health Building Note 18: Office accommodation in health buildings
- Health Building Note 18: Office Accommodation in health buildings / July 1988
- Health Building Note 44: Accommodation for ambulance services (x2)
HEALTH TECHNICAL MEMORANDUM FOLDER 170

-Health Technical Memorandum 10: Sterilizers
-Health Technical Memorandum 22: Piped medical gases, medical compressed air and medical vacuum installations
-Health Technical Memorandum 55: Windows
-Health Technical Memorandum 56: Partitions
-Health Technical Memorandum 57: Internal glazing
-Health Technical Memorandum 58: Internal Doorsets
-Health Technical Memorandum 64: Sanitary assemblies (x2)
-Health Technical Memorandum 63: Fitted storage system (x2)
-Health Technical Memorandum 62: Demountable storage system
-Health Technical Memorandum 61: Flooring
-Health Technical Memorandum 60: Ceilings
-Health Technical Memorandum 59: Ironmongery
-Health Technical Memorandum 66: Cubicle curtain track
-Health Technical Memorandum 83: Fire Safety in health care premises

HEALTH TECHNICAL MEMORANDUM FOLDER 171

-Health Technical Memorandum 2007: Electrical Services supply and distribution (x5)
-Health Technical Memorandum 2011: Emergency electrical services (x4)
-Health Technical Memorandum 2021: Electrical Safety code for high voltage systems
-Health Technical Memorandum 2015: Bedhead services (x3)
-Health Technical Memorandum 2014: Abatement of electrical interference (x4)

HEALTH TECHNICAL MEMORANDUM FOLDER 172

-Health Technical Memorandum 2015: Ventilation in healthcare premises (x8)
-Health Technical Memorandum 2027: Hot and Cold water supply, storage and mains services
-Health Technical Memorandum 2040: The control of legionellae in healthcare premises-a code of practice (x5)
-Health Technical Memorandum 2045: Acoustics (x5)
-Health Technical MEMORANDUM 2050: Risk management in the NHS estate

HOSPITAL EQUIPMENT NOTES FOLDER 173
- Hospital Equipment Note 1: Equipping a Hospital Building
- Hospital Equipment Note 4: Ward Units
- Hospital Equipment Note 6: Diagnostic x-ray department
- Hospital Equipment Note 7: Accommodation for nursing staff
- Hospital Equipment Note 8: Physiotherapy department
- Hospital Equipment Note 9: Occupational Therapy department
- Hospital Equipment Note 10: Kitchens
- Hospital Equipment Note 11: Dinning rooms
- Hospital Equipment Note 19: Department of medical photography and medical illustration
- Hospital Equipment Note 18: Administrative department
- Hospital Equipment Note 16: Boiler house and steam boiler plant
- Hospital Equipment Note 15: Pathology department
- Hospital Equipment Note 14: Training school for nurses
- Hospital Equipment Note 12: Out-patient department
- Hospital Equipment Note 21: Maternity department
- Health Equipment Note 15: Pathology Department
- Hospital Equipment Note 22: Accident and Emergency department
- Hospital Equipment Note 23: Children’s Ward
- Health Equipment Note 25: Laundry
- Hospital Equipment Note 25: Laundry
- Health Equipment Note 29: Pharmaceutical Department
- Hospital Equipment Note 31: Psychiatric ward TYPE 1
- Health Equipment Note 34: Works department for district general hospital and teaching hospitals

HOSPITAL TECHNICAL MEMORANDUM FOLDER 174

- Health Technical Memorandum 27: Cold water supply storage and mains distribution
- Health Technical Memorandum 23: Access and accommodation for engineering services
- Health Technical Memorandum 22: Piped medical gases, medical compressed air and medical vacuum installations (x2)
- Health Technical Memorandum 21: Safety code for high voltage installations
- Health Technical Memorandum 20: Staff location systems
- Health Technical Memorandum 17: Commissioning of hospital engineering services
- Health Technical Memorandum 18: Facsimile telegraphy: possible applications in district general hospitals
- Health Technical Memorandum 19: Facsimile telegraphy: The transmission of pathology reports within a hospital
- Commissioning of engineering services Paper

HOSPITAL TECHNICAL MEMORANDA FOLDER 175
-Hospital Technical Memorandum 16: Fire precautions
- Hospital Technical Memorandum 15: Patient /nurse call system
- Hospital Technical Memorandum 14: Abatement of electrical interference
- Hospital Technical Memorandum 13: Planned preventive maintenance: A system for engineering plant and services
- Hospital Technical Memorandum 12: Maintenance of buildings plant and equipment
- Hospital Technical Memorandum 11: Emergency electrical services
- Hospital Technical Memorandum 10: Pressure steam sterilizers
- Hospital Technical Memorandum 3: Fire precautions: fish friers
- Hospital Technical Memorandum 4: Colour code of flexible cables and cords
- Hospital Technical Memorandum 5: Steam boiler plant instrumentation
- Hospital Technical Memorandum 6: Protection of condensate systems: Filming amines
- Hospital Technical Memorandum 8: Safety code for electro-medical apparatus (x3)
- Hospital Technical Memorandum 7: Electrical services supply and distribution
- Hospital Technical Memorandum 2: Anti-static precautions-flooring in anesthetizing areas (x3)
- Hospital Technical Memorandum 1: Anti-static precautions-rubber, plastics and fabrics

**FIRE FOLDER 176**

- Health Technical Memorandum 83: Fire safety in health care premises
- The Hospital Electroencephalographic Suite
- Firecode: Fire Precautions in New Hospitals
- Health Technical Memorandum 87: Fire safety in healthcare premises
- Health Technical Memorandum 83: Fire safety in healthcare premises (x2)
- Hosplan: Fire safety code for health care buildings
- Technical standards relating to fire protection and means of escape in case of fire
- Draft Guide to fire precautions in existing hospitals 1981
- Report of a working party on: Anesthetic explosions
- Health service facilities planning notes: Environmental design and safety
- Home office: Fire prevention note no.2 (x2)
- Fire in hospitals: Fire research technical paper no.27
- United Kingdom Atomic Energy Authority: The testing of smoke detectors
- In-patient accommodation: Options for choice (Health Building Note 04)
- How to prevent it...how to deal with it
- Fire safety in health buildings
- Health Technical Memorandum 82: Fire safety in healthcare premises
- Article: Smoke screen
- Fire safety in hospitals and nursing homes: A report of an important international three-day conference in Paris
- Firecode: Assessing Fire Risk in existing Hospital Wards
- Health Technical Memorandum 87: Fire safety in health care premises-furniture, furnishings, bed assemblies, apparel
- Firecode: Alarms and detection systems

BOOK LISTS FOLDER 177

- Building Note 1
- Hospital Building Note 2: The cost of Hospital Buildings (x2)
- Hospital Building Note 4: Ward Units
- Hospital Building Note 6: Diagnostic x-ray department
- Hospital Building Note 7: Accommodation for nursing staff
- Hospital Building Note 8: Physiotherapy department
- Hospital Building Note 9: Occupational therapy department
- Hospital Building Note 17: Deep plan (race-track) ward units
- Hospital building Note 16: Boiler house and steam boiler
- Hospital Building Note 15: Pathology department
- Hospital Building Note 14: Training school for nurses
- Hospital Building Note 13: Central sterile supply department
- Hospital Building Note 12: Out-patient department
- Hospital Building Note 11: Dining rooms
- Hospital building Note 10: Kitchens
- Hospital building Note 18: Administrative department
- Hospital building Note 19: Department of medical photography and medical illustration
- Hospital building Note 20: Mortuary & post-mortem room (x2)
- Hospital building note 21: Maternity department
- Hospital Building Note 22: Accident and emergency department
- Hospital building Note 23: Children's ward
- Hospital Building Note 24: Residential accommodation for staff
- Hospital Building Note 32: Psychiatric ward type 2 and pre-discharge (hostel type) ward
- Hospital building Note 33: Rehabilitation centre for psychiatric patients
- Hospital Building Note 31: Psychiatric ward type 1
- Hospital building note 30: Accommodation for psychiatric patients
- Hospital building note 29: Pharmaceuticals department
- Hospital building note 27: Intensive therapy unit
- Hospital Building Note 26: Operating theatres
- Hospital building note 25: Laundry
- Hospital Building note 34: Works department for district general hospitals and teaching hospitals
- Hospital Building Note 35: Department of psychiatry (mental illness) for district general hospital

HEALTH CENTERS FOLDER 178

- Medical Centers: A user-requirements study
Central Health Service Council: Report on health centers
Thamesmead: Feasibility study for a main health centre
Thamesmead: First health centre brief
Nottinghamshire county council: Health Centers

PRIMARY CARE 1960-69/FOLDER 179

- Working in Health Centers: Symposium report
- Doctors Group Practice
- Sick Health Centers and How to Make Them Better
- Social casework in General Practice: A report on an experiment carried out in General Practice
- The College of general practitioners: Outlines of General Practice
- Design for family doctoring
- Design for family doctoring part 1

MAINTENANCE FOLDER 180

- Maintenance aspects of terotechnology: Planned Maintenance
- Maintenance aspect of terotechnology: Life-cycle Costing
- Terotechnology Case History no.1: Planned maintenance pays off in foundry
- Estmancode: System of planned preventive building maintenance
- The application of terotechnology and its concepts to hospital engineering
- Design aspect of terotechnology: Policy and Practice
- Terotechnology: An introduction to the management of physical resources
- Terotechnology Case History no.2: Planned maintenance helps spade manufacturer
- Manual of ‘predictive’ hospital maintenance
- Homerton Hospital: works department management policy
- Local Authority Building Maintenance: Drainage and cluttering, repair, maintenance and improvement
- Maintenance Management: A guide to good practice
- Pest control management for the health service
- Terotechnology Case Study no.5: Planned maintenance improves container base efficiency
- Terotechnology Case Study no.4: A study of plant availability
- Terotechnology Case Study no.3: Planned maintenance cuts food factory down time
- Building Maintenance: A management manual

HOSPITAL EQUIPMENT FOLDER 181

- North East Metropolitan Regional Hospital Board: Work-study unit (x2)
- By accident or design? - A study Equipment Development in Relation to basic nursing problems
- Design of Hospital Bedsteads
-Masterpiece hospital equipment manufacturers: Specialists in the upgrading and renovation of beds
-Result of television enquiry
-BBI/VISOLITE
-Systems Health Building: Automatic measurement
-Ferranti: Automated draughting equipment (Modular Digitizer EP210/EP211)
-Ferranti: Automated draughting equipment (ADE MICROFILM PLOTTER EP 140)
-With a little help: A guide to equipment and service for independent living

WASTE DISPOSAL FOLDER 182

-Newcastle Regional Hospital Board System Specifications
-Hospital Building Maintenance: Can decision making be improved?
-Health Building note 34: Estate maintenance and works operations
-Papers from 3rd International Congress of Hospital Engineering
-Special Article: Waste anesthetic gases and the regulatory agencies
-Consultative Paper: Proposals for the new safeguards on the use of lasers for medical and surgical purposes
-Evaluation study of engineering service functions for the regional engineers association
-Controlling waste anesthetic gases
-ERA: Code of practice for the avoidance of electrical interference in electronic instrumentation and systems

FURNITURE FOLDER 183

-Hospital beds: A problem for diagnosis and management
-The demand for hospital beds: Report of an enquiry on Tees-side
-Bristolmaid by Hospital Metalcraft Ltd.
-Studies in the function and design of non-surgical hospital equipment
-National Health service: Report of the specification working party on office area furniture
-The furnishing and equipment programmed for new hospital buildings and the selection of furniture and equipment for ward units
-Study day report: Soft furnishings in the Health Service 24 June 1977
-Sidhill Hospital equipment: A variety of items including beds/costs, trelleys, lockers etc.
-Patient area furniture for hospitals: Second record of the work specification group
-Comprehensive planning & equipment services

EQUIPMENT IN HOSPITALS FOLDER 184
The progressive patient care: Estimating beds needs
-Article: Five steps to lower costs and improved equipment maintenance
-Final year project report 1978: The use of hoists in patient bathing
-Report: Inter-regional hospital board study group
-Self-aids
-Walking aids and crutches
-Modern British Hospital Equipment
-Ferranti: Automated Draughting Equipment (COM plotter EP240)
-Harrogate seminar reports 4: Operational research and the clinician
-Ferranti: automated Draughting Equipment (ADE MICROFILM PLOTTER EP140)
-Ferranti: Automated Draughting Equipment (COM PLOTTER EP240)
-Ferranti: Automated Draughting Equipment (Interactive free draft system)

PLUMBING DRAINAGE AND TOILETS FOLDER 185

-Hospital drainage and sanitation: Bedpan disposal units
-Article: The second Stafford report
-Hospital water supplies: Report of proceedings
-The Hassa Toilet and the disabled: Summary of a report of an evaluation study
-Toilet facilities for long stay geriatric patients: Part 2 of a study planning requirements for geriatric patients
-Vernaid disposables: Bedpan
-The heating and ventilation research association: Plumbing-An analysis of the time spent on site activities
-BRS-In confidence note-Environmental design and engineering division
-A report into the efficiency of the Marley UPVC ridding Point Drainage System at two hospital units after six years
-Hospital Hygienics: Design and advisory service

SPECIFICATIONS/FLOOR FINISHES FOLDER 186

-Health and Safety in General Practices: A guide to risk assessment for GP’s and practice managers
-General medical Practice Premises: A commentary
-Article: Premises for Primary Care
-Article: East end Avante
-Designing primary healthcare premises: a resource
-Survey of Primary Care Premises Audit Methods in the London Implementation Zone 1995
LIG Primary Care Handbook no.1: Strategic Planning
Information sheet 2: Evaluating designs for GP premises
Article: Confidentiality in health centers and group practices: the implications for design
Paper: Area association study applied to a medical group practice (x2)
Confidentiality in health centers and group practices
Health Centers, Reception, Waiting and Patient call
Future Premises for Primary Health care
Article/Paper: primary care premises forum
Article: Premises for Primary Care
The design of general medical practices
Confidentiality in health centers and group practices
Health centres: Building on sand?
Health centers Handbook
Article: My view of the medical centre
Kentish Town Health Centre
Article: Scars
General medical practice premises a commentary: A guide to the size, design and construction of the GP premises
AJ-Just what the doctors ordered
Architecture today
Article: Providing premises in primary care
Primary care general practice and the NHS plan: Information for GP’s, nurses, other health professionals and staff working in primary care in England
Article: Primary care
Health Development Agency: New Primary Care Premises (design to support workplace health)
Article: Pharmacy premises audit: Executive summary
Paper: The victims of violence
AJ-The acceptable face of medicine
Building study: Healthy building syndrome
Article: Doctor’s orders
Article: Building revisit

PROJECT LEADERSHIP FOLDER 187

Folder Articles: Planning and design
Managing Health Services/ book 8
Ken Blanchard’s Situational Leadership: The Article
Article: Team and leadership
Improvement leaders Guide/series 1
Article: Action centered leadership
Modernization Agency NHS: Working with groups
Modernization Agency NHS: Building and nurturing an improvement culture
Modernization Agency NHS: Working in systems
Modernization Agency NHS: redesigning roles
Modernization Agency NHS: Sustainability and spread
-Modernization Agency NHS: Involving patients and careers
-Modernization Agency mismanaging the human dimensions of change: working with individuals
-Modernization Agency NHS: Redesigning roles

**DROCtown MODEL HOSPITAL PHASE 1/FOLDER 188**

-Content: Strategy
  : Design Brief
  : Operating Costs
  : Design Layout Drawings
  : Development Control Plan

**DROCtown MODEL HOSPITAL PHASE 2/FOLDER 189**

-Content: Design Brief
  : Operating Costs
  : Design Layout Drawings

**DROC STUDIES FOLDER 190**

-ORS-Modeling support for pathology services with reference to the evaluation of the droc programmed-final report 1992
-The DROC points system: A points system for Development Options to Reduce Operating Costs
-MIRC-Management Improvement to Reduce Hospital costs
-Health Service Estate: Health Building Notes
  : Energy Management in Sweden
  : Laundry Equipment
  : Replacing a Telephone Exchange
  : DROC interim Progress Report
-Department of Health: Research project: high/low operative cost study, code no. W88/IS/108A
-Drop point system: A points system for evaluating development options to reduce operating costs
-Psedroc: Points Systems FOR evaluating Development to Reduce Operating costs
-The City University: Points System for Evaluating Development options to Reduce Operating costs
-The City University: The use of quantities computer models to determine operating costs of alternative hospital designs
-ORS-evaluation DROC Programmed with reference to modeling support for pathology services
-PSEDROC-Points System for evaluating development options to reduce operating costs
HEATHBRIDGE MEREWORTH 3 FOLDER 191

-Content: Introduction
  : District context: geography, demography & epidemiology
  : Where are we now? Services
  : Where are we now? Manpower
  : Where are we now? Finance

HEALTH BUILDING SYSTEMS ENGINEERING FOLDER 192

-Health Building System engineering nucleus vol.3-
Content: Introduction
  : Water Services
  : Heating and Cool
  : Ventilation
  : Medical Gases
  : Industrial Gases and fuels
  : Electrical
  : Battery services
  : Communications
  : Protection Systems

HEALTH BUILDINGS SYSTEM ENGINEERING FOLDER 193

-Health Building System Engineering Nucleus vol.3-
Contents: Introduction
  : General data
  : Services Zoning
  : Electrical

NUCLEUS DESIGNERS HANDBOOK FOLDER 194

-Nucleus Folder 1
-Nucleus Folder 2
-Nucleus Folder 3
NUCLEUS STANDARD DEPARTMENT DATA PACK 36 FOLDER 195

-Adult Acute Ward Folder Content: Introduction
  : User Guide
  : Planning Principles and Design

Description
  : Index of ‘A’ Sheets
  : Index of ‘B’ Sheets
  : Adult Acute Ward 24 beds
  : Technical Design Studies
  : Technical design Data

NUCLEUS FOLDER 196

-Nucleus study no.24: a comparative evaluation-New ham General Countess of Chester
-Health Building System Engineering: Engineering Study Reports
-Nucleus Fête Precautions Recommendations 1979

NUCLEUS FOLDER 198

-Nucleus: Maternity Ward Data Pack
Content: Introduction
  : Planning Principles and Design Description
  : Plans
  : ‘A’ sheets
  : ‘B’ Sheets index
  : ‘C’ Sheet Index
  : Technical Design Study
  : Technical Design Data
  : User Guide for Computer disks

NUCLEUS FOLDER 199

-Accommodation for pathology services Study pack
Contents: Introduction
  : Description of National Design Solution
  : Plans
  : Technical design studies
  : Discussion Paper

NUCLEUS FOLDER 200

-Cost and area data: Design example 1 and additional departments
NUCLEUS FOLDER 201

-Nucleus: Maternity outpatients department and maternity administrative accommodation -Engineering data pack
Content: Engineering Services-design description-mechanical services
  - Engineering Services and load schedules
  - Mechanical Drawings
  - Electrical Drawings

NUCLEUS FOLDER 202

-Nucleus: Designers handbook
-Nucleus: Cost and area data-Design example 1 and additional departments
-Nucleus: Cost and area data-Design Example 1 and additional departments
-Nucleus: Policies and designs

NUCLEUS FOLDER 203

-Nucleus Development Study: Project Variations Compared with the standard
Contents: 1. Rehabilitation, Pharmacy, Main-waiting area, Central staff change
  - 2. Outpatient Department, Medical Records, and Laboratory Services
  - 3. Accident and Emergency, Fracture clinic
  - 4. Room x-ray Department, Administrative Department, Library/suites
  - 5. Adult Acute
  - 6. Operating Department, (Theatres) Medical, Staff, Accommodation
  - 7. Intensive Therapy Unit, Adult day care, Treatment Suite, on call/overnight stay suite
  - 8. Children’s Nursing Section
  - 9. Combined Children’s and Adult Acute Nursing Sections
  - 10. Central Delivery Suite, Special care baby unit
  - 11. Combined Antenatal and post-natal nursing sections
  - 12. Post-natal Nursing stations
  - 13. Combined Antenatal and Adult Acute nursing sections
  - 14. Combined Antenatal and children’s nursing sections
  - 15. Maternity administration/education, Library/meeting suite
  - 16. Nursing Section for the elderly type A
  - 17. Nursing Section for the elderly type B

NUCLEUS FOLDER 204

-Nucleus Development Study: Project variations compared with the standard volume 3
Contents: 1. Rehabilitation Pharmacy, Main waiting area, Central staff changes
   : 2. Outpatient department, medical records, and laboratory services
   : 3. Accident and emergency, fracture clinic
   : 4. Room x-ray department administrative department,
Library/meeting suites
   : 5. Adult acute
   : 6. Operating Department (theatres) medical staff accommodation
   : 7. Intensive therapy unit, adult day care treatment suite, on call/overnight stay suite
   : 8. Children’s nursing station
   : 9. Combined Children’s and adult acute nursing sections
   : 10. Central Delivery Suite, special care baby unit
   : 11. Combined Antenatal and postnatal nursing sections
   : 12. Post-natal nursing stations
   : 13. Combined antenatal and adult acute nursing sections
   : 14. Combined Antenatal and children’s nursing sections
   : 15. Obstetric clinic/maternity administration/education,
library/meeting suite
   : 16. Wards for the elderly type A
   : 17. Day hospital for the elderly 25 place
   : 18. Day hospital for the elderly 40 places
   : 19. X-ray departments 8 RDR
   : 21. Operating department
   : 22. Pharmacy 1200 beds
   : 23. Zonal staff changing
   : 24. Catering kitchens 600 meals
   : 25. Catering restaurants 300 meals
   : 26. Catering kitchens 1200 meals
   : 27. Catering restaurants 600 meals

NUCLEUS FOLDER 205

-Articles Folder: Nucleus appraised the pros and cons
-Bournemouth General hospital-East Dorset Health Authority
-Articles Folder: Conquest Hospital

NUCLEUS MATERNITY DEPARTMENT FOLDER 206

-Nucleus: Maternity Department-delivery suite and neonatal unit data pack
Contents: 1. Introduction
   : 2. Planning principles and design description (delivery suite 2A
Neonatal unit
   : 3. Plans
   : 4. A-sheets, Delivery suite, and 4A Neonatal unit
   : 5. B-sheet index, delivery suite, and 5A neonatal unit
NUCLEUS FOLDER 207

-Maternity outpatients department and maternity administrative accommodation pack:

Contents: 1.Introduction
: 2.Planning principles and design description
: 3.Plans
: 4.A-sheets
: 5.C-sheets
: 6.Technical design study
: 7.Technical design data
: 8.User guide for computer disks

NUCLEUS HOSPITAL PROJECT FOLDER 208

Content: Index
: Foreword
: Layout Plan 1:50 scale
: Fire Plan 1:50 scale
: Guidance notes
: Planning principles and design description
: Key Plan
: Schedule of Activity Spaces
: ‘A’ sheets for each space
: ‘B’ sheets for each space
: ‘C’ sheets for each space

4/6 RDR: Foreword
: Layout Plans 1:50 scale
: Key Plans

CT Scanning
: Layout Plan 1:50 scale
: Planning Principles and design description
: Key plans
: Schedule of activity spaces
: ‘A’ sheets for each space
: ‘B’ sheets for each space
: ‘C’ sheets for each space
: ADB ‘A’ sheet index
: ‘D’ sheets for department

NUCLEUS HOSPITAL PROJECT FOLDER 209
-Wards for the elderly-

Folder contents:
- INDEX
- Guidance Notes
- Layout Plan 1:50 scale
i) Fire Plan 1:50 scale (up to suspended ceiling level)
ii) Fire Plan 1:50 scale (ceiling void)

Planning principles and design description
- Key Plan

Schedule of activity spaces (A index sheets)
- A sheets for each space
- B sheets for each space
- C sheets for each space
- D sheets for each space
- G sheets for each space

Design option (with central day/dining area) 1:50 scale
Notes on design options
Technical Design data
- Appendix 1 - Key to engineering code letters used in ‘A’ sheets
- Appendix 2 - engineering symbols
- Appendix 3 - Key to categorize used in ‘A’ sheets for finishes to internal surfaces
- Appendix 4 - Key to requirements used in ‘A’ sheets for doors
- Appendix 5 - Door Ironmongery Schedule
- Appendix 6 - Details of fixed wardrobe A26BF (without medical gases)
- Appendix 7 - Details of fixed wardrobe A26BH (with medical gases)

NUCLEUS HOSPITAL PROJECT FOLDER 210

- Day hospital for the elderly 40 place
- INDEX
- Layout Plan 1:50 scale
- Fire Plan 1:50 scale
- Guidance notes
- Planning Principle and Design Description
- Key Plan
- Schedule of Activity Spaces (A index sheet)
- A, C, and D sheets for each space
- G sheets for each space
- B sheets for each space
- Technical Design Data
Appendix A – Key to engineering code letters used in ‘A’ sheets
Appendix B – engineering symbols
Appendix C – Key to categorizes used in ‘A’ sheets for the finishes to internal surfaces
Appendix D – key to requirements used in ‘A’ sheets for doors
Appendix E – Ironmongery Schedule

**NUCLEUS HOSPITAL PROJECT FOLDER 211**

-X-ray department 8 RDR-

**Contents:**
-INDEX
-FOREWORD
-Layout Plan 1:50 scale
-Fire Plan 1:50 scale
-Guidance Notes
Planning Principle and Design Description
Key Plan
Schedule of Activity Spaces (A sheets index)
-A sheets for each space
-B sheets for each space
-C sheets for each space
-D sheets for each space
-G sheets for each space
-G sheets for each department

-Technical Design Data – Appendix A –Key to engineering code letters used in A sheets
  -Appendix B – Engineering Symbols
  - Appendix C- Key to categories used in sheets
  - Appendix D – Key to requirements used in A sheets for doors

**NUCLEUS FOLDER 212**

-Model specification for building services in health care buildings-part C section 42A

**NUCLEUS HOSPITAL PROJECT FOLDER 213**

-Fire Plans

**Contents:**
-Service centre and hospital Streets
-Adult Acute Ward up to suspended ceiling level (ceiling void)
-Children’s Ward up to suspended ceiling (ceiling void)
-Children’s/Adult Acute Ward up to suspended ceiling
-Ante Natal Post Natal up to suspended ceiling
-Postnatal wards -up to suspended ceiling level
-Ante Natal /Adult Acute up to suspended ceiling level
-Ante Natal/Children’s up to ceiling level ceiling void
-Wards for the Elderly Type A up to suspended ceiling level ceiling void
-Wards for the elderly Type B up to suspended ceiling level ceiling void
-Operating (4 theatres) up to suspended ceiling level ceiling void
-Pharmacy 1200 beds up to suspended ceiling void
-Decentralized Staff Changing Pods up to suspended ceiling level
-Catering 600 kitchens (restaurant 300) up to ceiling level
-Catering 1200 kitchen (restaurant 600) up to suspended ceiling level
-Simple template A.A Ward on 1st floor up to suspended ceiling level

NUCLEUS-COMBINED ANTENATAL AND ADULT ACUTE NURSING FOLDER 214
-Nucleus hospital Project: Combined Antenatal and adult acute nursing sections

NUCLEUS NURSING SECTION FOLDER 215
-Nucleus Hospital Project: Nursing section for the elderly type a

NUCLEUS/OFFICE ACCOMMODATION AND HEALTH RECORD DEPARTMENTS FOLDER 216
-Nucleus :Office accommodation and health records departments
Content: Introduction
  : Description of national design solutions
  : Catalogue of plans

NUCLEUS/MAIN ENTRANCE FOLDER 217
-Main entrance
Content: Introduction
  : Description of national design solutions
  : Plans

NUCLEUS/ENGINEERING DATA PACK FOLDER 218
-Nucleus: Engineering data pack
Content: Introduction and user guide
  : NHS Estate CAD layering convention
  : Lists of computerized drawing schedules
  : AutoCAD drawing files

NUCLEUS/DESIGN INFORMATION FOLDER 219
-Nucleus: Design information –Routing of engineering services
Content: Introduction
  : Departmental templates
  : Zoning and routing in templates
Zoning and routing in vertical shaft
Plant rooms
Main engineering service-template/plant rooms
Engineering servicing strategies-application

NUCLEUS – THE PINDERFIELDS COLLABORATIVE EXERCISE FOLDER 220

-Nucleus: The Pinderfields collaborative exercise study pack
Content: Introduction
  : Background
  : The collaborative exercise
  : Option B
  : Re-appraisal of Option B
  : Option C
  : The main features and benefits of Option C
  : Departmental layout plans from Option C
  : The future of option C

NUCLEUS-GENITO URINARY MEDICINE CLINICS FOLDER 221

-Nucleus: Genito urinary medicine clinics data pack
Content: Introduction
  : Planning principles and design description
  : Plans
  : A-sheets
  : B-sheets index
  : C-sheets
  : User guide for computer disks

NUCLEUS REVIEW 2 FOLDER 222

-Nucleus: Review 2 study pack
Content: Introduction
  : The ‘Nucleus’ designer's handbook
  : Nucleus model 3(development control plan) Developments

NUCLEUS REVIEW 1 FOLDER 223

-Nucleus: Review 1 study pack
Content: Introduction
  : Oral surgery, orthodontic and restorative dentistry
  : Mortuary and post-mortem room
  : Rehabilitation department
  : Wards for elderly people
NUCLEUS –ISOLATION FACILITIES FOLDER 224

-Nucleus: Isolation facilities study pack
Content: Introduction
  : Planning Principles
  : Design description
  : Plans
  : Geography and references

NUCLEUS INTENSIVE THERAPY FOLDER 225

-Nucleus: Intensive therapy unit data pack
Content: Introduction
  : Planning principles and design description
  : Plans
  : A-sheets
  : C-sheets
  : Technical design study

NUCLEUS –FIRE DRAWINGS VOL.1 FOLDER 229

-Schedule of standard nucleus fire plans

Content:
-Title
-Adult Acute (nursing section) with double-pitched roof cover
-ITU day-care treatment suite with single pitched roof cover
-Operating (4 theatre suite)
-Children's nursing station-ground floor intermediate location between pharmacy and children's ward
-Rehabilitation/Pharmacy/Main-wait/central staff changes
-Outpatient department/medical records/laboratory services
-Accident and Emergency/fracture clinic
- X-ray department (4RDR)/administration/library meeting suite
- Supplies distribution centre
- Catering HSDU
- Children's/adult acute combined nursing sections
- Street fire plan-ground and first floor
- Street fire plan-ground and first floor linking supplies and service block

- Street fire plan-roof top plant rooms 1&2 and stair block
- Street fire plan-roof top plant rooms 3&4 and stair lift blocks
- Street fire plans-roof top lift motor room (supplies an services block)
- Plant room 5&6
- Maternity (ante and post natal nursing sections first floor location with double pitched roof over
- N.B this is not included in the overall DCP shown on dwg. FP21, 22&23 however, it can be substituted for any suitable nursing station
- Street fire plan-ground and first floor
- Fire plan first phase-first floor showing interlinking of compartments and sub-compartments
- Roof level fire plan phase 1-this dwg. Shows a typical double pitched roof solution
- Central delivery suite special baby unit
- Obstetric Clinic maternity/administration/education/library/meeting suite

NUCLEUS POLICIES AND DESIGN FOLDER 230

OLDER PEOPLE 1990-99 FOLDER 248

- Registered Homes act manual: second edition
- Health and healthy living: A guide for older people
- Caring in homes initiative: Research and development in residential care practice
- Dementia services development centre: Small scale, domestic style, long stay accommodation for people with dementia
- Dementia Services development centre: Group living for people with dementia
- Dementia Services development centre: Every house you’ll ever need
- Dementia Services development centre: Issues of assessment and design for long stay care
- Nursing and residential care homes: Delves house
- You could find a better way of life. Here.
- Counsel and care: A guide to community care choices for older people
- Healthcare in the home: Everyday living made easier
- Article: Choosing reside
- Discharge from NHS inpatient care of people with continuing health or social care needs: Arrangements for reviewing decisions on eligibility for NHS continuing inpatient care
- Dementia Service Development centre: Pink doors and doorknockers
- North Warwickshire NHS Trust: Helping people to improve their health now
- WHO Technical reports Series: Aging and working capacity
- Housing for Health
- Designing housing for older women
- Age Exchange: Reminiscence Training
- Housing and care for the elderly in the Netherlands
- Lifetime Homes: The Helen Hamlyn Foundation
- Health Service Guidelines: Local Authority contracts for residential and nursing care home care: NHS related aspects

OLDER PEOPLE 1970-79 FOLDER 249

- Old people’s houses: An architectural guide to housing for the elderly in Greater Copenhagen
- Old people in hospital
- The quality of life of the elderly in Residential care
- South East Thames Regional Health Authority: Strategies and Guidelines for the Elderly Care
- Ward Facilities for long-stay geriatric patients-part 3 of a study of planning requirements for geriatric patients
- Crossroads care attendant schemes trust
- An outline of geriatrics
- Cicely Northcote Trust: The Maintenance of the elderly within the Community
OXFORD METHOD FOLDER 250

- Article: The Nightingale succession
- The Oxford method
- NGH General Hospital, Northampton
- ARC-OXSYS-computer building for oxford method
- ARC-Computer aids for system building with an outline of the OXSYS system
- Paper: Baghdad Symposium on Oxford Method
- Oxford method
- OXSYS-A computer aided design system for Oxford method
- Article: The Oxford method-A rationalized approach to hospital planning and construction

OLDER PEOPLE 1980-89 FOLDER 251

- Behavioral studies related to care of the aged: Report on WHO Working Group
- PSSRU survey on residential accommodation for the elderly
- Living in hospital
- Balanced Life: A consumer study of residential life in one hundred authority old people's homes
- Housing Department-Southwark Council
- Introduction and guide to manual inspection of nursing homes
- Issues for London DHA's: Policies for the elderly
- Accommodation for elderly people-in patients
- Articles Folder: How long can we live?
- Health Building Note 37: Hospital Accommodation for Elderly People
- Health Building Note 4: Adult Acute Wards
- Health Equipment note 38: Accommodation for Adult acute Day Patients
- NHS Nursing homes for Elderly People: Design Notes for three experimental Projects

OLDER PEOPLE 1970-79 FOLDER 252

- Toilet facilities for long stay geriatric patients: a study of planning requirements for geriatric patients
- Care of the elderly: A survey and partial summary of social architectural research sources and literature
- Age Concern: Hospital and community care for the elderly
- Design Bulletin: Housing for the elderly
- Social Services Cheshire: Caring for the confused elderly
OXFORD METHOD HANDBOOK FOLDER 253

Content:
Volume one-concepts

I-Introduction
II-Medical Planning
III-Oxford Method Concepts
IV-Structure
V-Engineering Services
VI-Computer Aided Design
VII-Example Project
VIII-The planning of health care building in the Oxford Region in changing economic and health care climate

Volume two-building services system

I-Outline Guide to planning
II-Drawing framework guide
III-Outline Specification
IV-User Guide for electrical engineering

-Oxford Method Handbook vol.II

Content:
-Introductory Guide to Planning
-Drawing Numbering System
-Background Information
-User guide to electrical Engineering

A RANGE OF HOSPITALS FOLDER 254

-The Filkirk Ward
-Harness Hospital –Dudley
-Nuffield House:Musgrave Park Hospital,Belfast
-Hospital Description:Wycombe General Hospital phase one
-United Oxford Hospitals
-Princess Margaret hospital, Swindon
-Wexham Park Hospital
-Nucleus: Rehabilitation Department: Planning principles and design description

DAY CARE FOLDER 255

-Accommodating the third age: Designing for older people
- The quality of the environment in continuing care accommodation for the elderly
- The desirable scale: The relations between and social housing quality in assisted living facilities
- Building on: The feasibility of using modular buildings to provide accessible bathing, toilet, and sleeping facilities for older people/2001
- Health and safety in residential care homes
- Executive summary: General overview
- The geriatric day hospital
- Living in hospitals
- Day care centers
- CEH DESIGN GUIDE 1: Improving existing hospital buildings for long-stay residents
- Older people in the UK: Care group analysis
- Care of the elderly in Britain-Central office of information reference pamphlet 121
- BA Social Science: Literature based project

HOSPITAL WARDS FOLDER 256

- Better patient care through competitive tendering of hospital laundry and linen services
- Hospital building Note 34-Works departments for district generak hospital and teaching hospitals
- Hospital Building Note 34: works department for district general hospital and teaching hospitals (x2)
- The Management of 120-bed clinical nursing units
- Ward layouts with single room for flexibility: Discussion document
- Ward layouts with single rooms and space flexibility: Discussion document
- Taxonomy Folder
- Reduced bed spacing in Hospital Wards: A report of a pilot study and trails carried out for the department of health and social security
- Hospital Planning note 1: Ward Designs
- Ward Evaluation: St. Thomas Hospital
- An evaluation of the provision of oxygen and suction outlets serving in-patients

HOSPITAL DEVELOPMENT FOLDER 261

- Hospital Development January 1997: Floored Genius Achieving safety and savings
- Hospital Development February 1997: Two model examples: Design for mental health home and abroad
- Hospital Development: Wall to wall care-the award-winning design of the Sheffield Hallamshire/March 1997
-Hospital Development: Bright lights, big city: London initiatives in primary care and PFI design/April 1997

-Hospital Development: The road to local care/June 1997
-Hospital Development: Protecting soft targets/August 1997
-Hospital Development: Fire works – prevention and cure/June 1995
-Hospital Development: Rehab for deaf and blind people/April 1995
-Hospital Development: Fresh inspiration for hospital furnishings/March 1995
-Hospital Development: Health building in Japan/January 1995
-Hospital Development: Hot topics and pipe dreams/October 1997
-Hospital Development: Leading lights/September 1997
-Hospital Development: Showing the way /July-august 1995
-Hospital Development: Russian Unorthodox hospital building in Moscow/September 1995
-Hospital Development: community spirit mental healthcare/October 1995
-Hospital Development: Patterns and prognoses/November 1995
-Hospital Development: Taking the horses to water/January 1996
-Hospital Development: Stepping in the right direction/February 1996
-Hospital Development: Bay watch /March 1996
-Hospital Development: Patterns on care/November 1996
-Hospital Development: Reconstructing for the team/October 1996
-Hospital Development: Design for all-inclusive purposes/September 1996
-Hospital Development: Soft flooring/August 1996
-Hospital Development: System analysis/June 1996
-Hospital Development: Numbers game-private finance advice/May 1996
-Hospital Development: Street smart/April 1996

HOSPITAL DEVELOPMENT FOLDER 262

-Hospital Development: Shining a light/January 2007
-Hospital Development: New mindset
-Hospital Development: The new international children’s Eye Centre /May 2007
-Hospital Development: Faith healer/June 2007
-Hospital Development: The children’s ark/August 2007
-Hospital Development: Hope for procure 21/January 2006
-Hospital Development: a model for care/February 2008
-Hospital Development: Lifts off for London/April 2005
-Hospital Development: pinpointing staff safety/February 2005
-Hospital Development: the marking of the best patient environment 2005/January 2005
-Hospital Development: Complex question simple answer/October 2006
-Hospital Development: In with the new/September 2006
-Hospital Development: Barnstormer/August 2006
-Hospital Development: For staff at risk/May 2006
Hospital Development: Hospice in the city/May 2005
Hospital Development: building systems come of age/June 2005
Hospital Development: The royal London Homeopathic Hospital/August 2005
Hospital Development: Royal salute/September 2005
Hospital Development: Sluice room solutions from Arjo/October 2005
Hospital Development: Lighting the way for 2014/January 2004
Hospital Development: Washing their hands?/February 2004
Hospital Development: Heads up/October 2004
Hospital Development: The great outdoors/September 2004
Hospital Development: Reach out/July-Aug 2004
Hospital Development: head space/July 2004
Hospital Development: Community spirit created at Oslo/May 2004
Hospital Development: The interiors issue/April 2004
Hospital Development: The challenge for the NHS/March 2004
Hospital Development: Looking for a new perspective/November 2004

HOSPITAL DEVELOPMENT FOLDER 263

-Hospital Development: Looking sharp/January 2003
-Hospital Development: Young at heart/February 2003
-Hospital Development: Major Surgery/March 2003
-Hospital Development: Design of the times/April 2003
-Hospital Development: Middlesex stunner/May 2003
-Hospital Development: Derby winner/June 2003
-Hospital Development: Alternative medicine/July-Aug 2003
-Hospital Development: University entrance
-Hospital Development: The learning zone/March 2002
-Hospital Development: Emergency treatment/February 2002
-Hospital Development: Deco Downs/January 2002
-Hospital Development: Open door policy/November 2002
-Hospital Development: Can big really be beautiful?
-Hospital development: Heart of London/September 2003
-Hospital Development: Step change/may 2002
-Hospital development: mind zones/June 2002
-Hospital Development: Space age/July 2002
-Hospital Development: Civic statement/August 2002
-Hospital Development: Yorkshire hospitality
-Hospital Development: The hot topic/October 2002
-Hospital Development: Pillars of the community/November 2002

-Design and projects: Ward design at the cross-road?
-Development in ward planning
-6 Ward planning suggested reading list
-The design implications of caring for people suffering from AIDS: A preliminary discussion paper
-C.S.I.R Research Report: Hospital design 4

FPS PLANNING NETWORK FOLDER 325

-Health Facility Planning Networks
Folder Content:
-Introduction
-The Structure of the Planning Network
-Drawing Schedule
-Note on the Time Scale
-Notations and Symbols used in the Drawings
1.Statement of intent
2.Master network diagram for the briefing phase
3.Stage 1 Project Feasibility
4.Project feasibility - stream 3, Function and operation
5.Project feasibility - stream 4, Design and Construction
6.Project feasibility - stream 5, Stuffing and equipment
7.Stage 2 Development Brief Design
8.Development Brief and Design - stream 3, Function and operation
9.Development Brief and Design - stream 4, Design and Construction
10.Development brief AND design - stream 5 Staffing and equipment
11.Stage three-Detail Brief and Design
12.Detail Brief and Design - stream 3 Function and Operation
13.Detail Brief and Design - stream 4 Design and Construction
14.Detail Brief and Design - stream 5 Staffing and Equipment
-Capital planning project manual: An introduction to the provision and planning of buildings for the Health Service

Folder Content:

Section 1 what is capital planning?
LEVEL1
1.1 What is capital planning?
LEVEL2
1.2 Planning in the health service
LEVEL3
1.7 Matching building with services
1.9 The project
1.10 The planning process
1.12 National, Regional and District levels

Section 2 what is Project Team?
LEVEL1
2.1 What is a project team?
LEVEL2
2.2 Objective
2.3 Composition of team
2.6 Tasks and attitudes
LEVEL3
2.8 Problems and pitfalls
2.10 Planning and team work
2.12 New members of the team
2.13 Team interaction

Section 3 what is the plan work?
LEVEL1
3.1 What is the plan work?
LEVEL2
3.2 the purpose of each stage
LEVEL3
3.4 Saving time and cost
3.7 Briefing-Purpose and Response
3.9 Briefing-Communications
3.21 Development and status of brief
3.23 Planning Principles
3.24 The brief and phased development
3.26 Information available
3.27 Importance of the brief
3.29 Design and briefing operations
3.32 Design objectives
3.33 Principles and disciplines affecting design
3.45 The Design Process
3.46 The production stage
3.48 The Construction stage
3.49 The Commissioning team
3.54 The Evaluation Stage
3.55 design-in-use evaluation
3.57 Summary

Section 4 how is a project managed?
LEVEL 1
4.1 How is a project managed?
LEVEL 2
4.4 Major Tasks
4.6 Management procedures
LEVEL 3
4.9 Monitoring procedures
4.10 The stage of capricode
4.17 Capricode and the plan of work

Section 5 what does it really cost?
LEVEL 1
5.1 What does it really cost?
5.13 Building cost
5.17 Cost Awareness

HEALTH TECHNICAL MEMORANDUM FOLDER 327

-Health Technical Memorandum: User Manual 54
-Health Technical Memorandum: Windows 55
-Health Technical Memorandum: Partitions 56
-Health Technical Memorandum: Internal Glazing 57
-Health Technical Memorandum: Internal doorsteps 58
-Health Technical Memorandum: Signs 65
-Health Technical Memorandum: Sanitary assemblies 64
-Health Technical Memorandum: Fitted storage system
-Health Technical Memorandum: Demountable storage system 62
-Health Technical Memorandum: Flooring 61
-Health Technical Memorandum: Ceilings 60
-Health Technical Memorandum: Ironmongery 59
-Health Technical Memorandum: Cubicle curtain track 66

HEALTH SERVICE ESTATE FOLDER 328

-Health Service Estate: Hospital and Care Premises, no.72
-Health Service Estate no.71
-Health Service Estate no.70
-Health Service Estate no.69
-Health Service Estate no.68
-Health Service Estate no.67
-Health Service Estate no.64

HEALTH SERVICE ESTATE FOLDER 329

-Health Service Estate no.52
-Health Service Estate no.51
-Health Service Estate no.49
-Health Service Estate no.48
-Health Service Estate no.47
-Health Service Estate no.46
-Health Service Estate no.44
-Health Service Estate no.41
-Health Service Estate no.42
-Health Service Estate no.43

SCOTTISH DESIGN GUIDANCE FOLDER 330

-Review of the Hospital Plan for Scotland
-The Scottish office: Building regulation note 2/99
-Hospital Planning Notes 5: planning of Central supply departments
-Hospital Planning note 6: Organisation and design of out-patients departments
-Hospital planning Note 1-I: Room Data Sheets
-Centrepiece: Ward conversion for geriatric patients
-Scottish Hospital Centre: Fire in health buildings
-Scottish Hospital Centre: Wardrobe
-Scottish Hospital Centre: D.S.R
-Scottish hospital Centre: Preparation Room

EDUCATION CASES FOLDER 331

-DBS42-Accommodation for education and training
-Postgraduate medical centers’ design guide
-Education Centers in Hospitals: Final Report
-Hospital Equipment Note 7: Accommodation for nursing staff
-Hospital Building Bulletin 2: Accommodation for nursing staff
-Hospital Building Note 24: Residential accommodation for staff (x2)
-Evaluation of Newham General Hospital: Medical/nursing staff accommodation
-Greenwich & Deptford Hospital management committee
-NHS staff residential accommodation: Policy
-Nucleus Hospital plans

NHS HANDBOOK FOLDER 332
NHS Handbook Content:
1.1 NHS structure and organization 1948-79
1.2 Health authorities: the member’s role
1.3 Supply and demand since 1948
1.4 Trends in health and healthcare
1.5 The DHSS and the NHS
1.6 Family practitioner committees and services
1.7 The community health council
2.1 A glossary of financial terms
2.2 Resource allocation
2.3 Planning public expenditure
2.4 Financing area health authorities
3.1 The consultant
3.2 Nursing – a caring profession
4.1 Planning in the NHS
5.1 Disciplinary rules and appeals

DHSS DESIGN BULLETINS FOLDER 333

-Hospital Building for the Mentally Handicapped: DHSS design bulletin no.1
-Hospital Building for the Mentally Handicapped: DHSS design bulletin no.2

LOCAL AUTHORITY BUILDING NOTES FOLDER 334

-Local Authority Building Notes1: Costing and building procedures
-Local Authority Building Notes 1: Appendix F: cost allowances
-Local Authority Building Note 3: Local health authority clinic
-Local Authority Building Note 5: Adult training centers
-Local Authority Building Note 8: Residential accommodation for mentally handicapped adults

DESIGN GUIDE FOLDER 335

-Hospital E.N.T Services: A Design Guide 1974
Folder Content:
I) Scope
II) General consideration
III) General planning principles
-Impatient
-Outpatients
IV) Outpatient accommodation requirements
-General
-ENT clinic
-Audiology suite
-Hearing aid centre
-Office and other supporting accommodation
V) Engineering services
-General
CONSUMER INVOLVEMENT FOLDER 336

- Consumer Audit Guidelines
- Health Policy: What the patients think?
- Consumers in NHS research support Unit: Involving Consumers in Research and Redevelopment in the NHS
- Acute patients, outpatients, and day patients: What the patient think?
- King’s Fund: Involving the public
- Public Opinion and the National Health Service: Patterns and Perspectives in Consumer satisfaction
- Obtaining the views: Users of primary and community health care services
- Patient voice Magazine
- Consulting the community Article
- Consultation services for primary care groups: Consulting the community
- Involving people in the development of community centre care services: A good practice manual for Lambeth
- User Involvement: A guide to developing effective user involvement strategies in the NHS
- Health Services Management Centre Newsletter: Public involvement and primary care groups
- User-friendly services: Guidelines for managers of community health services
- Public health and public values
- Reference manual for public involvement
- Patient centered standards in cancer care buildings
- Briefing: Building on the best: choice, responsiveness and equity in the NHS

CONSUMER INVOLVEMENT FOLDER 337

- Involving users :Improving the delivery of local public services
- For the benefit of patients
- Improving health services through consumer participation: A resource guide for organizations
- Consumers in NHS research support unit
- Working partnerships: Consumers in the NHS Research -3rd annual report
- National Advocacy Network: Conference 1991
- News: Involving the public in healthcare priorities
- The centre for health design: A guide to conducting healthcare facility visits
- Supporting self-advocacy
- KF-Project Paper: CHC Visiting
- Involving the public: A survey public involvement on London’s primary groups
- Department of Health: Tackling Health Inequalities (the result of the consultation exercise)
- NAHA-Better visiting: Improving the effectiveness of visiting by health authority members
- A place like home: A radical experiment in health care
- The centre for health design: Working paper: Consumer perceptions of the healthcare environment (an investigation to determine what matters)
- Consumer Audit: User views about amenities
- And what would they know about it? The issue options and implications of seeking the patient’s point of view
- KF Discussion paper: Collaboration for change

**COMMISSIONING FOLDER 338**

- Health Equipment Note 1: Equipping a hospital building
- Opening a hospital is easy
- Commissioning a new hospital (interim report)
- Commissioning hospital buildings: King Edward hospital Fund for London
- Commissioning hospital buildings
- King’s Fund Report: Commissioning a hospital building

**COMMISSIONING FOLDER 339**

- The Health Service Supplement: Furniture and furnishings/1988
- The Princess Margaret Hospital Swindon: Commissioning a new hospital
- IOR-Hospital operational policies at the commissioning stage
- Scottish Hospital Centre: Hospital Commissioning
- Facility Planning System: A guide to commissioning
- IOR-Networks for the commissioning of Walsgrave Hospital, Coventry
- Hull Group Hospital Committee: The new Hull Infirmary
- Stimulating ward management in the new royal free hospital - training for change
- Health Facility Notes: Operational commissioning strategy-a manager’s guide
- IOR-Networks for the commissioning of Walsgrave Hospital, Coventry

**ASSET MANAGEMENT FOLDER 340**
-Estate Management Performance Indicators: Princess Alice Memorial Hospital
-The Strategic Asset Management Working Group Report 2002
-National Audit Office: Estate Management in the National Health Service
-NHS Property Appraisal
-An exemplar estate strategy
-Health Building Note: Estate Quality Model
-Health Building Note: A strategy for healthier estate
-Audit Commissioning: NHS Estate Management and property maintenance
-Underused and surplus property in the National Health Service
-Department of health and social security: Underused and surplus property in the National Health Service (x2)
-Note on the asset management seminar 1989
-Computerized Works Information System: WIMS
-Commissioner’s investment and asset management strategy: Understanding your estate
-Performance Assessment via a balanced scorecard: Promoting effective estate and facilities management
-Research paper: Matching the existing building stock to changing need

**BRIEFING FOLDER 341**

-A methodical approach to formulating the client user input to a design brief for health building-part 3
- A methodical approach to formulating the client user input to a design brief for health building-part 1-3
- A methodical approach to formulating the client user input to a design brief for health building-part 1&2
-MARU innovation circle: Creativity in briefing
-Improving whole life value of healthcare facilities through better briefing and pioneering
-Building for people in hospitals: Workers and consumers

**BRIEFING FOLDER 342**

-The centre for Health Design-Working paper: Consumer perceptions of the healthcare environment (an investigation to determine what matters)
-Whole Hospital Operational Policies: Refuse disposal
-Department of Health: PHI Planning Healthcare Infrastructure
-The Medical Officer: A briefing method for health centers
-Bermuda Hospitals Board: King Edward VII Memorial Hospital
-Health Service Facility Planning Notes: Health Service Planning
-Design Investigation Procedure (x2)
-Briefing framework and protocols-comparative factors
-South West London Lift tenants requirements and operational policy for parkway health centre
Phase 2 Whipps Cross: Out-patient department development (design brief)-1992
Daycare and minimal invasive therapy unit: This document presents a brief and associated activity data sheet for Daycare and M.I.T unit development within phase 2(x2)
Day surgery unit: Outline brief
-Briefing: Optimizing design – diagnostic imaging /May 2004
-Explanatory notes for the planning department
-Accommodation Design Data-Aid to briefing
-Designing the customer experience: The briefing process
-An architects system of collecting User Information

PROJECT BRIEFING FOLDER 343

-The best client Guide: Good practice briefing and design manual
-Consultation and the brief Folder
-Briefing method research paper
-The Design Development Protocol for PFI Schemes August 2004
-MARU innovation circle: Creativity in briefing
-Teaching Architectural Programming
-Interviews with architects about facility programming
-Learning decision making for the building process

CONSUMER INVOLVEMENT FOLDER 344

-Patients and Their Hospitals: A King’s Fund Report
-SCPR-Developments in Poole Hospital (consultative research among patients)
-Regeneration and Transport: Regeneration Game
-Article: What the patients said?
-Money news Article: Pensioners lose all
-Are your clients satisfied?
-WDS-Antenatal waiting areas
-Buildings Article: Walls have ears
-Impatient experiences: What do patients really think?
-Article: Hospital Design a suitable case for treatment
-Public health forum: Public involvement and health improvement
-KF News: User involvement in healthcare
-Paper for Hospital and Care Premises Management Conference: Designing for the patient
-New Health Economies: Premium Bond
-Article: The opinion poll approach
-Executive summary: Chronic disease and its effects
-Article: Involving patients: Hear and now

BRIEFING FOLDER 345

-Patient Empowerment: The Empowered patient
-AHA National Congress: Design for user needs
- Patient Satisfaction Survey of The Pembridge Palliative Care Centre 1998
- NHS Estate Quality Assurance Model (The patient journey)
- Practice Observed: How do people choose their doctor?
- The Institute of Building: What the patient thinks?
- Proceeding of Health Buildings 2000: How do we know what people think of their building?
- Article: Getting the building brief right
- Research Article: Learning by experience
- Findings in the NHS survey: Happy now?
- Investing in patients representatives
- H.U.B.B Stands for Hope Document
- Article: Building the best
- Nottingham Patients Councils Support Group
- Briefing document for Community Care Centre
- Health Service Design Note 3: A guide to user activity measurement in health buildings
- Managing the brief for a better design
- The brief: Design briefing system
- Capital Planning Project Manual: An introduction to the provision and planning of buildings for the Health Service
- Better finding means better buildings
- Advice Book (x3)
- Programming and equipping: Hospital Departments
- Design Briefing System: An aid to briefing

**NURSE MANPOWER FOLDER 346**

- Public Health Papers 31: A guide for staffing a hospital nursing service
- Leeds Regional National Board: Work measurement as a basis for calculating nursing establishments
- Scottish Health Service Studies: Nursing workload per patient as a basis for Staffing
- King’s Fund project Paper: Patient nurse dependency
- Nurse manpower maintaining the balance
- Scottish Health Service Studies 9: Nursing Workload per patient as a basis for staffing
- Ministry of health: Outline and Recommendations of the report of the committee on senior nosing staff structure
- Using Information in managing the nursing resource: Workload
- Using Information In Managing the Nursing Resource: Skill Mix Management

**NURSING TEXTS FOLDER 347**

- Writing for Social Scientists: How to start and finish your thesis
- Contemporary Social Research no.3: The uses of social research
- Probability sampling of hospitals and patients
- The OECD Social Indicator Development Programmed: Measuring Social Well-being
INFECTION CONTROL FOLDER 348

- HaCIRC10 - Better healthcare through better infrastructure
- Guidelines on the facilities required for minor surgical procedures and minimal access interventions
- Infection control in the built environment

CLEANING/INFECTION CONTROL FOLDER 349

- Immunization against infectious disease
- Infection control: A healthcare report
- The Journal of the Royal College of General Practitioners
- Infection Control: A healthcare report
- National Patient Safety Agency: Listening to people with learning difficulties and family careers talk about patient safety
- In safer hands: Increasing safety and reducing harm
- Health Service Pest Control 1987
- The Industrial Water Society: Facts and theories on Legionnaires disease
- Working party to formulate a code of practice for the prevention of infection in clinical laboratories
- Article: Hospital Infection
- Report on the criteria for the provision of facilities for minor surgery
- The wearing of protective clothing: A report and recommendations
- Infectious disease strategy: Epidemiology
- The Health Service Journal Supplement: Pest Control 1988
- Design features affecting asepsis in the hospital
- Environmental aspects of the hospital: vol.1 Infection Control
- Health Economics Research Unit: Is the price of safety to high?
- Health Service Facilities Planning notes: Healthcare-planning 2
- Modern British Hospital Cleaning
- A Matron’s Charter: An action plan for cleaner hospitals
- Micro flow Pathfinder: Clean Rooms and Controlled Environments

INFECTION CONTROL FOLDER 350

- MRSA - Separating fact from fiction
- Screens addresses side room shortage
- Indoor and Built Environment
- Engineering infection control through facility design
- Cost-effectiveness of hospital design: Options to improve patient safety and wellbeing
- BMJ - Infection control in hospitals - sink or swim?

INFECTION CONTROL FOLDER 351

- Hospital Infection Control: Guidance on the control of infection in hospitals
- Multicentre European study on continuous surveillance of nosocomial infections
- The role of textiles in hospitals cross-infection
- Improving patient care by reducing the risk of hospital acquired infection-Report
- Reduction of Hospital acquired infections by design
- The £1bn bug Article
- Article: Ventilation-Breathing Room
- Property and environment forum: Healthcare associated infection system for controlling in the built environment
- NHS Scotland: Scottish Health Facilities Note 30-version 2
- Department of Health: Working together to reduce healthcare associated infection in England
- Infection control: Prevention of healthcare associated infection in primary and community care
- The Health Act 2006: Code of practice for the prevention and control of health care associated infections
- The Contractor’s view: Infection control during construction is contagious

HOSPITAL PLANNING FOLDER 352

- Ruimte rond (groter) bedden-STAGG
- Ward layout and nurse staffing: A report on three case study hospitals
- Ward evaluation: St. Thomas Hospital
- Queensland Government: Review of international literature in the use of Single versus multiple bedrooms in acute care facilities
- Hospital Planning Note 1: In-patient accommodation
- Health Building Note 4: Adult Acute Wards
- Design Briefing system notebook: Adult Acute Wards

NURSING 1960-69 FOLDER 353

- Notes on nursing by Florence Nightingale
- Yorkshire Health Authority: Estate development directorate
- Research Paper: The furnishing and equipment programmed for new hospital buildings and the selection of furniture and equipment for ward units
- Health Building Note 40: Common activity spaces vol.1
- Newspaper articles folder
- Hospital Plans Research Folder
- Article: Children’s ward made into a friendly village
- Independent Sector: Independent means
- News Focus: Judgment day
- Article: Preferential insight
- Milton Keynes: The first stage of the planning process
- Health and Safety: Pollution precaution
- Decent homes, housing and health – Research paper
- Setting the scene – Research paper
-Article: Home rules
-Research paper: Design for user needs
-Australian studies in health service administration: Health service facilities planning and design
-The impact of DRG reimbursement on strategic planning
-The NHS planning system: Its context and development
-The NHS planning system: Notes on methodology
-Community development series: Designing the open nursing home
-Hospital elements: Administration department

HOSPITAL INFECTION FOLDER 354
-Control of hospital infection: A practical handbook
-Protective air enclosures in Health Buildings
-Research Proposal: A design Audit Tool for controlling hospital acquired infections
-Article: A two-bed portable nursing unit
-Journal of Hospital Infection: Guidelines for the control of epidemic methylene-resistant Staphylococcus aureus
-Airborne infection in a fully air-conditioned hospital (x2)
-Article: Do single patient rooms reduce infection risk?
-International Symposium on contamination control
-Pest control in health service premises
-The fight against surgical infection Article
-Prevention of hospital infection – the role of hospital engineering

HOSPITAL PLANNING FOLDER 355
-Ward Layout and Nurse Staffing: A report on three case study hospitals
-Current issues: Designing the universal patient care room
-Ward Layout and Nurse Staffing: Literature review summary
-Final Account Article: Imperfect vision no.2-uneasy bedfellows
-Patient Care Article: Ensuring bed space is right first time
-Interior of ward at St.Thomas Hospital at the turn of the century
-A perspective on accommodating the impatient in the UK
-Clinical Named Nurse: The named nurse in perspective
-Parliament Monitor Article: Paying for kidneys
-A scandalous impromptu
-The patient arena: A ward by any other name
-Organization of care diagram
-Ward Planning Paper
-Ward Planning Article: King’s Cross-Station
-The Oxford Acute Ward Model Introduction
-Health Building Note 4: In-patient accommodation: Options for choice
-Article: In the beginning was the ward
-Design Article: Private rooms prove highly adaptable
-The Ward of the future: Conference at the Hospital Centre London
-Questionnaire: Patient’s views of Hospital
-Checklist: How good is your Hospital? (X2)
-Paper Research: Ward evaluation: St.Thomas Hospital, London and subsequent developments
-Article: Ward conversion for AIDS at the Middlesex Hospital
-Article: Ward design
-Suggestions for improving the nursing service of hospital and the method of training nurses for the sick poor
-Ward design and patient preferences
-Article: Patients and their hospitals
-Article: Ward size governs nursing costs
-Article: Ward planning at crossroads
-Design and Projects: Ward design at the crossroad?
-Ward Design Article: Time for a new view
-Policies and trends in nursing care affecting design of central acute wards
-Equippin g a new Hospital: Bringing method to the madness
-Article: Upgrading of in-patient accommodation
-The Jubilee Project: A report on a King’s Fund project to commemorate her majesty Queen Elizabeth’s silver jubilee by upgrading wards in ten of London’s older hospitals
-News Focus Article: How the tables have turned
-Inpatient Experiences: What do patients really think?
-Hospital Design Article: Towards a better ward design
-A contemporary trend of hospital ward design in the UK and actual condition in utilization
-Article: Ward size governs nursing costs
-Article: The nurse and hospital planning

BUILT ENVIRONMENT FOLDER 356

-The Management of 120-bed clinical nursing units: An account of research carried out in the five years 1970-1974
-Some economics of hospital waiting lists in the NHS
-Design Council: Red paper 01 Health-Co-creating services
-Health Article: Accounting for the quality of human life
-Medical Practice paper: Poverty, wealth, and health, or getting the dosage right
-Working towards wellness: Accelerating the prevention of chronic disease
-Operational Research for Multi-organizations
-RAWP reappraisal: When social deprivation counts
-Social capital and health
-An international study of Hospital utilization: Considerations of methods of collecting necessary data for estimating hospital bed requirements and for planning service
-Article: Coming up for air
-National Seminar 1970
-Some aspects of modeling operational problems in the National Health Service
-Technical Study Article: Need for a theory of function in architecture
-“Fast Track” and New Methodology in Hospital Planning and Construction
-Cabe: The value of urban design: Executive summary
-Griffiths and Community care 5: Meeting the challenge
-Implementing the urban white paper

WORK FORCE FOLDER 357

-Improving the health of the NHS workforce: Report of the partnership on the health of the NHS Workforce
-National Health Service Staff Commission Report (1972-1975)
-Whiter wards? Consideration of factors affecting the design of in-patient accommodation in acute general hospitals
-Journal of advanced nursing: Nursing ideology and the ‘generic career’
-Department of Health: A health service of all the talents developing the NHS workforce
-Working together: Human Resources guidance and requirements for Primary Care Trusts
-Professional. Scientific and technical staff of the Department of Health and Social Security
-The National Training Council for the National Health Service: Report by the training working party
-Mersey Regional Health Authority: “…but who will make the beds?”
-National Audit Office: Report by the Comptroller and Auditor General
-An example of a nursing establishment method of calculation (research paper)
-The future healthcare workforce: The steering group report
-Nurse Manpower Planning: Approaches and techniques

CAPITAL INVESTMENT FOLDER 358

-Capital Investment manual
-Capital Investment Manual: Overview
-Capital Investment Manual: Project Organization
-Capital Investment Manual: Private finance guide
-Capital Investment Manual: IM&T Guidance
-Capital Investment Manual: Management of Construction Projects
-Capital Investment Manual: Post-project Evaluation
-Capital Investment Manual: Commissioning a Health Care Facility

CAPRICODE FOLDER 359

-Capri code folder content:
-Depart of Health and Social Security: Health Building Procedures (x3)
**INFECTION CONTROL POLICIES FOLDER 360**

- Model Department Safety, environmental and infection control policies for hospitals

- Objectives
- Safety and Environmental control Program
- Safety Committee
- Infection Control Programmed
- Infection Control Committee
- Surveillance
- Specific Regulations Established by the Safety Committee
- Handling and storage of gasses, flammable liquids and materials
- Oxygen-enriched atmosphere
- Smoking regulations
- Use of extension cords
- Use of personal electric equipment
- Pest control
- Waste disposal
- Functional testing and preventive maintenance on electrical and electronic medical equipment
- Failure of essential utility services
- Instruction of hospital employees concerning safety policies and procedures
- Questionnaire concerning external and internal disaster (fire) plans
- Questionnaire concerning fire safety
- Incident reporting system questionnaire and guidelines

**DEPARTMENTS**

- Infection Control and safety
- Administration
- Admission Department
- Anesthesia Department
- Cardiopulmonary Services
- Central Supply and Service
- Dietary Department
- Emergency Services
- Employee Health Service
- Housekeeping and linens
- Laboratory Department (Clinical and Pathology)
- Laundry
- Medical Records

**CAPRICODE FOLDER 361**

- Capri code: Health Building Procedure note1: Procedure for the planning and processing of individual building projects

**Content:**

**Abbreviations**

**Glossary**
Section A: Introduction
Section B: Regional Works Organization
Section C: RHA and AHA Project Teams
Section D: The Building Procedure

Appendices:
Appendix 1-Summary of stages in planning
Appendix 2-Procedure for a major project undertaken by a RHA
Appendix 3-Information required by DHSS for selected schemes
Appendix 4-Procedure for Extension or partial redevelopment of an existing hospital
Appendix 5-RHA/AHA Building Procedures
Appendix 6-Instrument in Writing
Appendix 7-Teaching Hospital Supplement

Bibliography

CAPITAL CHARGING MANUAL FOLDER 362

Contents:
Section 1 -- Introduction
1.1 General background and objectives of the scheme
1.2 The Capital Charges Unit
1.3 Audit

Section 2 -- Basic Principles
2.1 The scope of capital charges
2.2 Definitions-2.2.1 Definition of an asset for capital charges
-2.2.2 Definitions of capital expenditure
2.3 Chargeable date

Section 3 -- Capital Charges Calculations
3.1 General
3.2 Depreciation- 3.2.1 Basis of calculations
- 3.2.2 Method of calculation and formulae

CODE OF PRACTICE FOLDER 363

-Code of Practice for Project Management for Construction and Development
-APMKnowledge: APM body of knowledge
-The use of option appraisal in SETRHA
-Capricode: Health Building Procedures
-C.I.M-Capital Investment Manual Procedures
-HSMC-Questions to ask of new clinical procedures

CAPITAL CHANGING FOLDER 364
-NAHAT Research Paper 4: A review of capital and capital charges in the NHS (X2)
-Department of Health: Income Generation-A guide to local initiative
-The Chartered Institute of Public Finance and Accountancy: Financial review of capital charges within a community healthcare NHS trust
-Estate of Health vol.1
-Estates Information Article Folder: Zero plus one equals zero
-Hospital Building Note 2:The cost of hospital buildings
-Working for patients: Capital Charges: Funding Issues- paper 9
-Working for patients: Capital Charges-paper 5
-Department of Health: The costing of Health Buildings for Capital Charging Purposes
-Section 8:The Estate
-Special features WIMS:Open for Business
-Capital Charges
-The Health Service Journal: Charging into confusion
-Accountability for the NHS estate
-Investment appraisal in the public sector: A management guide for Government Departments
-Investment appraisal in the public sector: A technical guide for government departments

CAPRI CODE BACKGROUND FOLDER 365

-Capital Development: Building up for business
-Review of Capri code –the need for control and changes likely to be introduced
-Article: Making sense of EC procurement rules
-Local Authority Building Note 1:Costing and building procedures
-The Welsh Office’s procedures for processing major building projects
-Health Building Procurement In Scotland: Procedures subsequent to approval in principle
-DHSS-Health services management
-DHSS-Appraisal of development options in the National Health Service
-Review of Capricode: Building strategy
-DHSS-Building control
-Hospital Building Procedure note 5:The Development Control Plan
-Research Report 11:Unfreezing the assets: NHS estate management in the 1990’s
-Department of Health and Social Security: Capricode Health Building Procedures
-Planning design and construction of hospital buildings for the National Health Service

BUSINESS CASE FOLDER 366
Making sense of public sector investments: The five case model in decision-making
-Briefing June 2003: Investing in design – developing a business case for good design in health
-A review of progress in developing business cases under the capital investment manual/1995
-Introduction to the business case
-A review of progress in developing business cases under the capital investment manual
-Extracts from Capri code
-Department of health and Social Security: Option appraisal
-National Audit Office: Hospital Building in England
-Scottish Health Building Code Part 1: Procedures for the Preparation and Approval of Individual Projects
-Sold on Health: Modernizing procurement, operation and disposal of the NHS

CAPITAL /REVENUE FOLDER 367

-Deep or shallow building: A comparison of costs in use
-Comparative cost report: A report for NHS Estate, England
-Application of statistics to the Interpretation of Estimates
-Estimation of the revenue costs of NHS developments
-DHSS-Surveying Division: Capital expenditure forecasting on Health Building Schemes
-DHSS-Surveying Division: An aid to capital planning for the health service
-Management aspects of terotechnology: Life cycle costing
-Design with economy in mind: Counting the cost
-DHSS-Feasible methods of estimating building costs at A.I.P stage
-Consumerism: Departmental cost allowances guide review
-Capital cost control at National Strategic Level
-Note on the relationship between planning health buildings and the cost of running them

ESTATE MANAGEMENT FOLDER 368

-Estate Quality Model: Case study
-Health Building Note 34: Estate maintenance and works operations
-Developing an estate strategy
-Estate Management: the advisory group on estate management
-Concise: Health Building Information & Management systems
-Estates training in the NHS: Review and prospect
-South East Thames Regional Health Authority: Condition appraisal of hospitals
-Unfreezing the assets: NHS estate management in the 1990’s
Working for the future: An invitation to shape a National Workforce Strategy for EFM (a document seeking views on how a strategy should be developed)

-Estate Management
-Estatecode: Essential guidance on estates and facilities management
-Maidstone Health Authority: Estate profile
-ABS-Property services management
-Estate Folder Information
-Estate Management: Re-use of existing buildings
-Computerized Works information & Management System

ESTATECODE FOLDER 369

-Estatecode: Essential guidance on estates and facilities management

Folder Contents:

Executive Summary
1. Introduction
   - About this publication
   - Reference to other guidance
   - The policy context

2. Land and property matters
   - Land and property ownership
   - Land and property transactions
   - Mandatory requirements relating to land and property transactions
   - Commercial requirements relating to land and property transactions

3. Planning strategic investment in the estate
   - Estate management and strategic service planning
   - A framework for strategic service planning
   - Information required for strategic service planning
   - Opportunities and threats in service planning arising directly from the estate
   - Formulating the service strategy
   - The estate investment programmed

4. Land and property appraisal
   - Objectives
   - Undertaking the appraisal - the six facet approach
   - Data collection

5. Management of land and property
   - Introduction
   - Management of land and property records
   - The costs of holding land and property
   - Procuring services - including accommodation
   - Building maintenance
   - Risk management
- Leaseholds
- Boundaries
- Rights over your land
- Donated property and charity
- Management of the historic environment

6. Asset Maintenance
- Introduction
- Maintenance systems
- Common types of maintenance provision
- Staffing the maintenance function
- Technical management
- Risk management
- Health and safety management
- Output specifications
- Selection of contract
- Environmental impact assessment

7. Acquisition of land and property
- The business case
- Site identification
- Planning points
- Compulsory purchase powers
- Negotiating the purchase
- Timetable
- The decision to lease
- Site survey
- Heads of terms
- The solicitor’s role

8. Disposal of surplus land and property
- Introduction
- Principles of disposal
- Managing the professional team
The role of NHS estate
- Priority purchases
- The business case
- Planning points
- Setting the sale price
- Sale methods
- Simplified disposal process for residential property
- Disposal of partially surplus sites
- Disposal of surplus historic sites
- Surplus leasehold land and property
- Financial credentials
- Disposals that reserve a participation in development profit
- Decommissioning
- Capri code folder
- The National Estate awareness training programmed
- Agreement for the appointment of project managers for commissions for construction projects in the National Health Service 1995
- Estate Management information in the NHS
- Agreement for the appointment of Architects, Quantity surveyors, structural and services engineers
- Department of Health Estatecode: Property appraisal
- Department of Health Estatecode: Estate control plan
- Department of health Estatecode: Property transactions in the NHS (X2)
- Department of health Estatecode: Chairman, members and general managers
- Department of Health Estatecode: Estate operational plan
- Department of Health Estatecode: Strategy for estate information and computer technology
- Department of health Estatecode: Estate action plan
- Department of Health Estatecode: Estate investment programmed

**CONCODE VOL.2 FOLDER 371**

- Contracts and commissions for the NHS estate vol.2

Folder Contents:

1. Summary of policy
   - Contract strategy and management
   - Selection of consultants and contractors
   - Conditions of contract
   - Consultant commissions
   - Requirements of European Community directives
   - Miscellaneous

2. Contract strategy and management
   - Introduction
   - Project directors
   - Contract strategy
   - Selecting a contract strategy and assessing risk
   - Further guidance on contract strategies

3. Selection of consultants and contractors
   - Introduction
   - Selective competitive tendering the norm
   - Appraisal of tenders (contractors and consultants)
   - Approved lists
   - Consortium (or joint venture) tendering
   - Exchange of information
   - Civil liability and criminal offences
   - Standards of conduct
   - Audit role
- Tendering procedures
- Issue, receipt and evaluation tenders
- Notification of tender results / fee competition
- Contractors
- Consultants
- Post-tender negotiation
- Letting the contract
- Letters of intent
- Attestation
- Named and nominated sub-contractors and supplies

4. Conditions of contract
- Introduction
- Standard form of contract
- Feedback
- Mechanical and electrical work
- Racial discrimination
- Health safety and welfare
- Data Protection Act 1984
- Specifications-property articles
- Value added tax
- Fluctuations
- General
- Methods of calculating fluctuations
- Financial safeguards
- Performance bonds/parent company guarantees
- Prompt settlement of accounts
- Loss/expense claims and settlements of disputes
- General
- Contractual payments
- Extra-contractual matters
- Commercial settlements
- Interim ascertainment
- Failure by architect/contract administrator and contractor to reach a settlement
- Liquidated and ascertained damages
- Planning legislation, building regulations and codes of practice
- Construction Industry Tax Deduction Scheme
- Work Insurance
- General
- New buildings
- Existing buildings
- Evidence of insurance carried
- Transfer of contracts for works of service between NHS bodies
- Existing contracts
- New contracts
- Notification
- Latest defects in building transferred to NHS trusts
5. Consultant commissions
   - Introduction
   - Standard forms of agreement
   - Feedback
   - Certificates
   - Value added tax
   - Prompt payment of accounts
   - Settlement of disputes
   - Professional indemnity insurance
   - Amount of insurance cover
   - Additional insurance
   - Small practices
   - Evidence of insurance carried
   - Contractor’s design liability
   - Health safety and welfare

6. Requirements of European community directives
   - Introduction
   - Directives governing public procurement
   - Unacceptable notices
   - Criteria for award of contracts
   - Statistical returns
   - Provision of information about contract award procedures

7. Private finance
   - Introduction
   - Further guidance on private finance

8. Market testing
   - Introduction
   - Further guidance on market testing

9. Miscellaneous
   - Introduction
   - Building in adverse weather conditions
   - Preservation and destruction of documents
   - Retention of documents and the Latent Damage Act 1986
   - Standards and quality assurance

CONCODE VOL.3 FOLDER 372

- Contracts and commissions for the NHS estate vol.3

Folder content:

1. GC/Works/1 (Edition 3) General Conditions of Contract and Civil Engineering
   - The contract

2. Government and Department of Health policy requirements
3. GC/Works/1 (Edition 3) General Conditions of Contract for Building and civil engineering Standard Form of contract – lump sum with quantities
- Introduction
- The conditions

4. GC/Works/1 (Edition 3) General Conditions of Contract for Building and civil engineering Standard Form of contract – lump sum with quantities
- Disposal room
- Satellite recording bays
- Orthopedic patients
- Safety
- Security
- Infection control
- Cleaning requirements
- Maintenance
- Doors and openings

ESTATE MANAGEMENT CONTRIBUTION TO NHS PLANNING FOLDER 374

-The estate management contribution to NHS planning: Seminar information developed by DHSS operations division
Folder Content:
1. Introduction and seminar brief
2. General description of Mereworth district
3. Where are we now? Existing healthcare services
4. Where are we now? Finance
5. Where are we now? Manpower
6. Where are we now? The estate
7. Where do we want to be? Planning objectives
8. How do we get there? Seminar structure and timetable
9-17. Estate information-Hospital by hospital plans, condition survey etc.

EVALUATION AND MEREWORTH 3 FOLDER 375

-Property Appraisal Technique for DHSS Operations Division
Contents folder:

1. Interim Report
   -Outline brief
   -Health district
   -Confirmed brief
   -Mereworth 3
   -Level 2 analyses
   -Comments on property appraisal summary forms
   -Site plan
   -Drawings
   -Facilities of Leeds Eastern Health Authority
   -Recommendations

2. Resources
   -A district plan showing the location of all the Health Authority's property

3. Strategic level information
   The documentation for each hospital comprises
   -Site plan indicating the boundaries of the property and the block reference numbers of partitions or departments
   -Aerial photographs
   -Property appraisal summary forms

MEREWORTH 2 FOLDER 376
Re-use of existing estate: Seminar Information developed by DHSS Operations Division and Medical Architecture Research Unit

Contents:

1. The redevelopment of existing stock: Jubilee Cottage Hospital
2. The alternative use of space: Cross Keys Hospital
3. Independence and interdependence changes in the whole hospital: St Hilda’s Hospital

PRIMARY CARE PREMISES HANDBOOKS FOLDER 378

London Initiative Zone: Primary Care Premises Handbook

Content:

1. Primary care Premises Handbook no.1: Strategic planning
2. Primary Care Premises Handbook no.2: Procedures procurement and funding
3. Primary Care Premises Handbook no.3: Case studies
4. Primary Care Premises Handbook no.4: Planning and Design information

WARDS ENGLAND ASSORTED PAPERS 1 FOLDER 378

-Management Audit for the nursing services
-Health Building Note 38: Accommodation for Adult Acute Day patients
-Patient dependency study
-Patient nurse dependency
-Radcliff Infirmary: Nursing dependency in medical wards
-Primary nursing: An Introductory guide
-Homer ton Hospital Evaluation
-Ward layout and nurse staffing: A report on three case study hospitals
-Design Briefing System Notebook: Adult Acute Wards

WARDS HOSPLAN FOLDER 379

-Hosplan: Planning and Design Note no.1: Engineering services (x2)
-Health Building Guideline: Medical surgical inpatient accommodation
-Saving in ward planning
-British Ward Design and Equipment
-Centrepiece: Upgrading wards
-The evaluation of a deep ward plan

WARDS HMSO SCOTTISH FOLDER 380

-The Falkirk Ward
-Hospital Design in use 4: The Falkirk Ward (x2)
-Hospital Equipment Note 4: Ward Units
- Savings in Ward Planning
- Hosplan Planning and Design note no.1
- Centrepiece: Ward Conversation for Geriatric Patients
- Centrepiece: Upgrading of Wards (x3)
- Centrepiece: The functional analysis of ward plans
- A Scandalous Impromptu (x3)
- Scottish Health Service Studies 31: Patient Costing Study
- The virtue of patients: Making best use of ward nursing resources
- Hospital Ward Design

WARDS ENGLAND ASSORTED PAPERS 2 FOLDERS 381

- A scandalous impromptu
- Progressive patient care: Interim Report of a Departmental Working Group
- The Hospital Centre: Nurses Station
- From Words to Wards: A series of articles by various authors on the doctor’s contribution to hospital planning
- Information relating to general patient care: Operational policy
- Standard Department: Acute Ward (x2)
- British Ward Design and Equipment
- British Medical Association no.1: Intensive Care
- Ward evaluations: A context
- Audit Commission: Lying in Wait-the use of medical beds in acute hospitals
- Savings in ward planning
- The evaluation of a deep ward plan
- Victoria Ward: Ward upgrading design
- Ministry of Health Development Project 3: Greenwich District Hospital
- Operational policies and planning brief

WARDS MARU 1 FOLDER 382

- Hospital Design in Use 1: Vale of Leven Hospital
- Dewsbury District Hospital: Report on evaluation of nucleus development
- An evaluation on the scale of provision of oxygen and suction outlets serving in-patient bed areas (x2)
- Ward layout and nurse staffing: Literature review summary
- Hospital Building note 17: Deep Plan ward units
- Hospital Equipment note 4: Ward Units (x2)
- Nucleus evaluation study no.1: Greenwich Mock-up (design of bedrooms in a nursing section)
- The evaluation of a deep ward plan
- Nucleus study no.8 design in use: financial appraisal

RESEARCH PAPERS FOLDER 383

- Environmental psychology and hospital design
- Green the emergency in healthcare
- Manchester University Hospital: Environmental quality primer
- Health Buildings in the Community: Environments for quality care
-Department of the environment, transport and the regions: Housing quality indicators
-Healthcare design: Buildings and facilities
-Institute of building: Conservation of the health environment
-The environment for care: Proceedings from the NHS estates 2004
-The environment for care: An NHS estates symposium
-Hospital Design: Room for improvement
-Design for health: The impact of a new hospital environment on children, families and staff
-NHS design review programmed: Tomorrow’s Hospital
-RIBA Architecture Centre: How did they do that?
-Design Quality: Definition, framework and checklist
-An NHS estate workshop: Exploring the patient environment

WARDS INCLUDING EVALUATIONS FOLDER 384

-Evaluation of acute wards: Hospital evaluation research unit
-The evaluation of a deep ward plan
-Article: Men and movements
-Adolescent unit: architects approach and appraisal
-The Jubilee Project: Report on a King’s Fund Project to commemorate her majesty Queen Elisabeth’s silver jubilee by upgrading wards in ten of London’s older hospitals
-Elements of progressive patient care
-A King’s Fund Report: Design of hospital bedsteads
-Hospital Planning Note 1977: In-patient accommodation
-The University of Sheffield: Providing single rooms for patients: a study of the benefits to patients and staff within the NHS in England
-Patient Support systems: And so to beds...
-From words to wards: “The right hospital”

WARD DESIGN FOLDER 385

-Hospital Ward Design
-Nuffield Foundation: Study course (verbal report)
-Nightingale Ward Report
-Centrepiece: The Functional Analysis of Ward Plans
-Victoria Ward: Ward upgrading design
-Health Service facilities planning notes: Healthcare-planning III
-C.S.I.R Research Report: Hospital Design 4
-The architect’s journal 1960
-Research Paper: Ward unit
-Centrepiece: Upgrading the ward (x3)
-Leicestershire area health authority: Survey of mixed sex wards
-A proposal for a ward layout classification system
-Ward layout and nurse staffing: Literature review summary
-Hospital Planning Notes I-I: Room data sheets
-Hospital Building Note 17: Deep plan (race-track) ward units
-Stables City Hospital: Ward block
-Standard Ward Plan: Review of South Western Regional Hospital
-Building Week Article: Wrong diagnosis for hospitals
-Alternative to the elevator: When horizontal movers come in, will hospital design spread out?
-The Hospital Article: Better building
-AJ Magazine Article: Medical ward block
-Article: A two bed portable nursing unit
-Article: A two-bed portable sterile nursing unit (x2)
-The portable island ward: An entirely new concept in Sterile or Isolation
-Article: Movable Slip Ward
-Article: National Staff Committee
-British Ward design and equipment

**WARDS MARU 2 FOLDER 386**

-Ward Layout and Nurse Staffing: A report on three case study hospitals
-Ward Evaluation: St. Thomas Hospital
-An evaluation of wards for the elderly-draft report
-Ward evaluation study: Oxford regional health authority
-Methods for the experimental comparison of alternative generic layout types: A second interim report as part of a project carried out for the department of health and social security
-Reduced bed spacing in hospital wards: A report of a pilot study and trials carried out for the department of health and social security
-St. Thomas Hospital: Ward evaluation
-Ward layout and nurse staffing: A literature review
-Appraisal of proposal by the Southern Health Care Trust for a 35-bed general acute ward
-A proposal for ward layout classification system

**GENERAL ACUTE WARDS MISCELLANEOUS FOLDER 387**

-Standard Ward Report
-Adult day care –research
-Management Article: Controlling interest
-Northwick Park Hospital and Clinical Research Centre
-Nucleus Hospitals Key plans folder
-Changing perspectives: Quality initiatives in accident and emergency and day care treatments
-Hospital Building Note 17: Deep plan (race-track) ward units
-Management Article: A structured approach
-Article: Nursing precious resources
-Article: A change in the right direction
-Clinical Drugs Update Article: Stopping the drugs trolley
-Article: Ghost in the machine
-Ward Design Article: Under observation
-Hospital Ward Layout and nurse staffing
- Oxford Regional Hospital Board: Operational Research Unit - Measurement of nursing care
- Centrepiece: The functional analysis of ward plans

**STAFF CHANGE STAFF ON CALL FOLDER 388**
- Centrepiece: Changing Accommodation for Non-Resident Staff in Hospitals (x2)
- Staff changing accommodation in hospitals: An appraisal of options and issues
- Central changing areas Kings Lynn Hospital: An evaluation of Space Provision
- Staff Changing accommodation in hospitals: An appraisal of options and issues
- Evaluation of Newhan General Hospital: Central Staff Change
- Health Building Note 41: Accommodation for Staff changing storage of Uniforms
- Health Building Note 25: Laundry
- Hospital Building Note 24: Residential Accommodation for staff
- Evaluation of central staff changing department - Greenwich District Hospital
- Nucleus study no.12: Whole Hospital policies facilities for staff
- Nucleus Study no.13: Whole Hospital Policies facilities for staff
- Design Briefing System 41: Accommodation for staff changing and storage of uniforms (x2)

**NHS STRUCTURE FOLDER 389**
- Flexible designs are key to reuse projects
- Design strategy for flexible health sciences facilities
- Distribution of room size in hospitals
- The Architect’s Journal: Planning for growth and change
- The Health and Care Infrastructure Research and Innovations Centre: Adaptability and innovation in healthcare facilities
- Viewpoint Article: Friend of the flexible
- Offprint from the Journal of The Royal Society for the encouragement of arts Manufactures and Commerce

**CHANGING SPECTRUM OF CARE FOLDER 390**
- Children’s Hospital Boston: Children Today
- The National Association of Health Service Security Officers: General advice to architecture and planning
- Royal Free Hampstead NHS Trust: Signing of Junctions at the Royal Free Hospital
- Articles Folder: Log on and like it
- Preparing your organization for transport in the future: The benefits of Green Transport Plans
-The United Birmingham Hospitals: Centre site Development (parking survey)
-Solving the problem of a world on wheels
-Department of the environment: Rural transport experiments: South Yorkshire Hospital Transport Service
-Department of the environment: Access to hospitals: A literature review
-Department of the environment: Rural transport experiments: the Northallerton Hospital Transport Service
-Department of the environment: The application of accessibility measures in Gwent
-United Oxford Hospitals: Report on traffic assessment
-CRU: The use of grid-square census data in the location of hospital facilities: a case study of the Durham Health District
-Planning and control of hospital external transport

CHANGING SPECTRUM OF CARE FOLDER 391
- The rehabilitation of drug addicts: Report of the Advisory Committee on Drug Dependence
- Centre for Health Systems and Design
- Nursing Article: The concept of childhood and theories of development
- Waterloo’s Longford Castle
- Newspaper articles folder: Kid’s health Takes Heart
- The “Matchbox” on a Muffin”: The design of hospitals in the early NHS
- The West way Centre: Elderly people’s integrated care service
- Department of rehabilitation: A design Guide
- Hospital Articles: Shelter from the storm
- Article: Design for Health Service Catering
- Mosaic Clubhouse News:Human problem-international solutions
- The patron-custodian of quality
- NHS Review: Words from the source

CABE FOLDER 392

-Cabe :Improving the design of healthcare environments
-Radical improvements in hospital design: If my hospital was a car, I think it would be a transit van-a bit old and knackered, but fits a lot in the back (x2)
-NHS Estate: Building a better patient environment
-Better health buildings: Good design is a commitment to a better quality of life for all
-Design with distinction: The value of good building design in higher education
-Healthy hospitals:Cabe
-Design Review
-Design Reviewed: An annual review of some of the most significant building and public space projects seen by CABE’s expert design panel in 2004-05
-Protecting Design Quality in Planning
-Creating Excellent Buildings: A guide for clients
-The professional’s choice: The future of the built environment professions
-An Evaluation of the scale of provision of oxygen and suction outlets serving in-patient bed areas (x2)
-Harness: Cruciform wards (x2)
-Article: Lighting the way
-Article: Rubicon crossed in acute hospital design
-Nursing attitudes toward the constructed environment of nursing homes
-Aberdeen formula and guide to its use (X2)
-King’s Fund Beds: Designing a standard
-Report: Visit to healthcare centers in the San Francisco and Los Angeles area, California USA 2004
-Activity sampling in nursing
-Single Bedrooms: The patient experience
-Hospital Design: Towards a better ward design
-The nursing process-Research paper
-New Zealand: Department of Health (recommended guidelines for beds and services)
-Article: Patients and privacy
-Current issues: Designing the universal patient care room
-Ward Evaluation: A context
-Reduced bed spacing in hospital wards: A report of a pilot study and trials carried out for the department of health and social security
-Ward study proposal: The organizational and spatial requirements for the new patterns of general inpatient care
-A proposal for ward layout classification system
-Royal Free Hampstead NHS Trust: Proposed increase in Bed Numbers in General Acute Wards at the Royal Free Hospital
-Ergonomic study of nursing in five-bedded bays

- Next generation facilities: Ways to improve productivity and efficiency
- The Bristol Review: Bricks not Clicks
- Health Architecture for the 21st century: A health system perspective
- The Hospital of the Future: International trends in the provision and utilization of hospital care
- System change: Introduction
- Designing the 21st century hospital

Policy Folder 431

- Department of Health: Our health, our care, our say: A new direction for community services
- A framework for action – report
- Health in Europe 1997: Executive summary
- Health challenges beyond the year 2000

Harness 2 Folders 432

- Harness Folder: Standard Departments
  Contents: The manual is in the form of separate volumes each relating to a standard department and containing the following information at architectural pre-production stage (data pack 2)

  i) Schedule of activity spaces
  ii) A SHEETS-data sheets of all activity spaces within the department including functional and technical requirements
  iii) C SHEETS-drawings at 1:50 scale showing each space within the department in plan and elevation-and fixed equipment and engineering terminals
  iv) B Level Drawings-plan drawings of the whole department at 1:50 scale normally showing positions at fixed equipment and engineering terminals

Harness 3 Folders 433

- Harness: A manual for the design of non-standard departments
  Contents:

  1) Introduction
  2) Whole hospital policy
  3) Department design policy and schedule of accommodation
  4) 'C' sheets and activity data
  5) 1/200 scale line diagrams
  6) Standard graphics
  7) 'B' level drawing and check list
  8) Fire drawing and check list
  9) 'C' level drawing and check list
10) ’A’ level drawing and details
11) Project schedules
12) Feedback. Enquiry cards
13) Index

**HARNESS 4 FOLDERS 434**

-Harness: A manual for the design of the harness zone

Contents:

**SECTION A-PRINCIPLES OF THE HARNESS ZONE DESIGN**
1. The Harness concept
2. Harness zone policy aspects
3. Harness zone design aspects

**SECTION B A DESIGN SOLUTION**
1. Operational policy
2. Design Policy
3. Cost criteria
4. Development beyond line diagram stage

**SECTION C WORKED EXAMPLE**

**HARNESS FOLDER 435**

-Harness: 5A whole hospital policies
  : 5B departmental design briefs

Contents:
1. Fire
2. Catering
3. Cleaning
4. Staff changing
5. Materials handling
6. Centralized dictation services
7. Security

**HARNESS SYSTEM FOLDER 436**

-Harness: Bournemouth design exercise: A collection of reports
-Harness: Bournemouth 3 exercise: Report
-Harness documents
-Report on Falfield 2 exercise held in October 1971
-Harness Prototype: East Birmingham pathology department: Report at construction stage

**HARNESS SYSTEM FOLDER 437**
-Birmingham Regional Hospital Board: Building Design Partnerships
-Stafford Hospital
-Stafford District General Hospital
-Harness Hospital: Evaluation of simulation in architectural briefing
-West Midlands Regional Health Authority: User Comments
-Stafford District General Hospital: Design–in-use evaluation

**HARNESS SYSTEM FOLDER 438**

-Harness: Brighton design exercise-A collection of reports
-Harness Prototype: North Tees Geriatric unit-report at construction stage
-The feasibility of evaluating the performance at the Harness geriatric unit at North DGH 1974
-Department of Design Research: The feasibility of evaluating the performance of the Harness geriatric unit at North Tees DGH
-Stepping hill

**HARNESS SYSTEM FOLDER 439**

-Harness Hospitals
-RHVA Report
-DHSS-Harness feasibility studies
-Harness: Cruciform wards (x2)
-Harness: Investigation into the spatial requirements for engineering services
-Harness: Guidance for engineering (pre-production drawings)
-Harness System Design Report: I computer aided building

**HARNESS SYSTEM FOLDER 440**

-Space Organization in the accident and emergency department: Final report on a research project carried out for the DHSS as part of the Systems and Standards Programme
-Dudley General District Hospital: Development control plan
-DHSS Project Model
-Southlands Hospital phase 5:Harness Evaluation Study
-Harness: Harness zone and special accommodation
-Computer aided evaluations: Content : Introduction and summary totals
  : Methods
  : Description of output
  : Computer output for each hospital

-Harness: Bournemouth design exercise

**HARNESS SYSTEM FOLDER 441**
-Article: Harness
-Department of Health and social security: Built form
-Harness: Outline designs of Harness standard departments
-Article: DHSS lunches yet another hospital system and drops Harness
-Harness Hospitals
-Stafford Hospital

**HARNESS SYSTEM FOLDER 442**

-Harness: System design report (x2)
-Section A.I: 1971 prototype development control plan system introduction
-Harness System Design Report: The building system (x2)
-Harness Hospitals (x2)
-Harness: Harness zone and special accommodation
-Harness: Hecad working group (interim report)
-Harness and D.C.A.G cost comparison

**NUCLEUS FOLDER 443**

-Nucleus: Rehabilitation department-engineering data pack
Contents:

1.Engineering services design description-mechanical services
-1A engineering services design description-electrical services
2.Engineering service load schedules
2A room identification and technical design data
3.Mechanical drawings
4.Electrical drawings
5.Public health drawings

**NUCLEUS FOLDER 444**

-Nucleus: Intensive therapy unit -Engineering data pack
Contents:

1.Engineering services design description-mechanical services
- General
- Ventilation
- Heating
- Hot and cold water services and fire main
- Medical gases
- Drainage and sanitation
2.Engineering services load schedule
- Mechanical services

**NUCLEUS FOLDER 445**

-Nucleus: Maternity department-delivery suite and neonatal unit
Contents:
1. Introduction
2. Planning principles and design description
3. Plans
4. A-sheets
5. B-sheet index
6. C-sheets
7. Technical design studies
8. Technical design data
9. User guide for Computer disks

NUCLEUS FOLDER 446

- Nucleus Hospital Model: Design example two
- Nucleus: Projects information bulletin no.10
- Nucleus study no.9: Fire Evacuation exercises (West Cheshire Hospital) 1982
- Nucleus study no.11: Fire evacuation exercises (West Park Hospital) 1983
- Nucleus Study no.24: A comparative evaluation (Newham General Countess of Chester

NUCLEUS FOLDER 447

- Nucleus: Rehabilitation department
Contents:

1. Introduction
2. Planning principles and design description
3. Plans
4. A Sheets rehabilitation department
5. C-sheets
6. Technical design study
7. Technical design data
8. User guide for computer disks

NUCLEUS FOLDER 448

- Nucleus: Maternity department-delivery suite and neonatal unit
Contents:

1. Engineering services design description mechanical services
   1A Engineering services design description-electrical services
2. Engineering services load schedules
   2A room identification and technical design data
3. Mechanical drawings
4. Electrical drawings
5. Public health drawings

NUCLEUS FOLDER 449
-Nucleus: Maternity department-delivery suite and neonatal unit
Contents:

1. Engineering services design description mechanical services
   1A Engineering services design description-electrical services
2. Engineering services load schedules
2A Room identification and technical design data
3. Mechanical drawings
4. Electrical drawings
5. Public health drawings

NUCLEUS FOLDER 450

Nucleus: Staff base
Contents:

1. Introduction
2. Planning principles and design description
3. Evaluation study

NUCLEUS FOLDER 451

-Nucleus: 24 bed adult acute ward
Contents:

1. Engineering services design description
2. Engineering services load schedule
3. Mechanical drawings
4. Electrical drawings
5. Drawings

NUCLEUS FOLDER 452

-Nucleus: Comprehensive children's department
Contents:

1. Introduction
2. Description of national design solutions
3. Plans
4. Case study

NUCLEUS FOLDER 453

-Nucleus: Operating department
Contents:

1. Introduction
2. Planning principles and design description
3. Plans
4. C-sheets
5. Technical design studies

**NUCLEUS FOLDER 454**

-Nucleus: Operating Department

Contents:

1. Engineering services design description
2. Engineering services load schedule
3. Mechanical drawings
4. Electrical drawings
5. Public health drawings

**NUCLEUS HOSPITAL PROJECT FOLDER 455**

-Nucleus Hospital Project Folder

Contents:

- Layout plan 1:50 scale
- Fire Plan 1:50 scale (up to suspended ceiling level)
- Planning Principles and Design Description
- Key Plan
- Schedule of Activity Spaces (A sheet index and section index)
1. A sheets for each space
2. B sheets
3. C sheets for each space
4. G sheets for each space
- Technical Design Data (appendix 1-6)

**NUCLEUS STANDARD DEPARTMENT FOLDER 456**

-Nucleus Standard Department Data Pack 28: Outpatients Department

Contents:

1. Introduction
2. User Guide
3. Planning Principles and Design Description
4. Index of A sheets
5. Index of B sheets
6. 18 consulting and examination rooms
7. 12 consulting and examination rooms
8. 16 C&E rooms and plaster facilities
9. 12 C&E rooms-3 consulting and 6 exam rooms
10. Technical Design Data

Contents:

1. Layout Plan 1:50 scales
2. Fire Plan 1:50 scale (up to suspended ceiling level)
3. Fire Plan 1:50 scale (ceiling void)
4. Planning Principles and design Description
5. Key plan
6. Schedule of activity Spaces (A sheets index)
   - Sheets for each space
   - B sheets for each space
   - C sheets for each space
   - D sheets for each space
   - G sheets for each space
7. Technical Design Data (appendix 1-7)
NUCLEUS FOLDER 464
-Nucleus Hospital Project Cluster 3

NUCLEUS FOLDER 465

-Folder Contents:

1. Model specification for building services in health care buildings
2. Notes for part A.02
3. Model specification for building services in health care buildings
4. Standard general conditions and preliminaries of sub-contract index
5. Conditions of sub-contract-section 3
6. Continuation of the above job
7. Supplementary clauses-section 4
8. Continuation of the above job
9. Appendices-section 5
10. HOCS issue -1 -notes
11. HOCS issue 01®-section 03 to concede July 84

NUCLEUS FOLDER 466

-Nucleus hospital Project: Service Centre

Contents:

1. Index
2. Layout Plan 1:50 scales
3. Fire Plan 1:50 scale
4. Guidance Notes
5. Planning Principles and Design Description
6. Key Plan
7. Schedule of Activity Spaces (A sheet index)
8. A, C and D sheets for each space
9. G sheets for the department
10. B sheets for the department
11. Technical Design Data (Appendix 'A '-'E')

NUCLEUS FOLDER 467

-Contents:
-Introduction
-Historical perspective
-Comparison of new and previous plans
-Wards and clusters
-Number and use of beds
-Planning principles and design description
-Functional unit
-Philosophy of service
-Workload
-Specific Exclusions
-Planning principles
-Workflow
-Shared Accommodation
-Hospital Policies
